#### MANAGING EDITOR

Angela M. Fritsch, *Toronto*

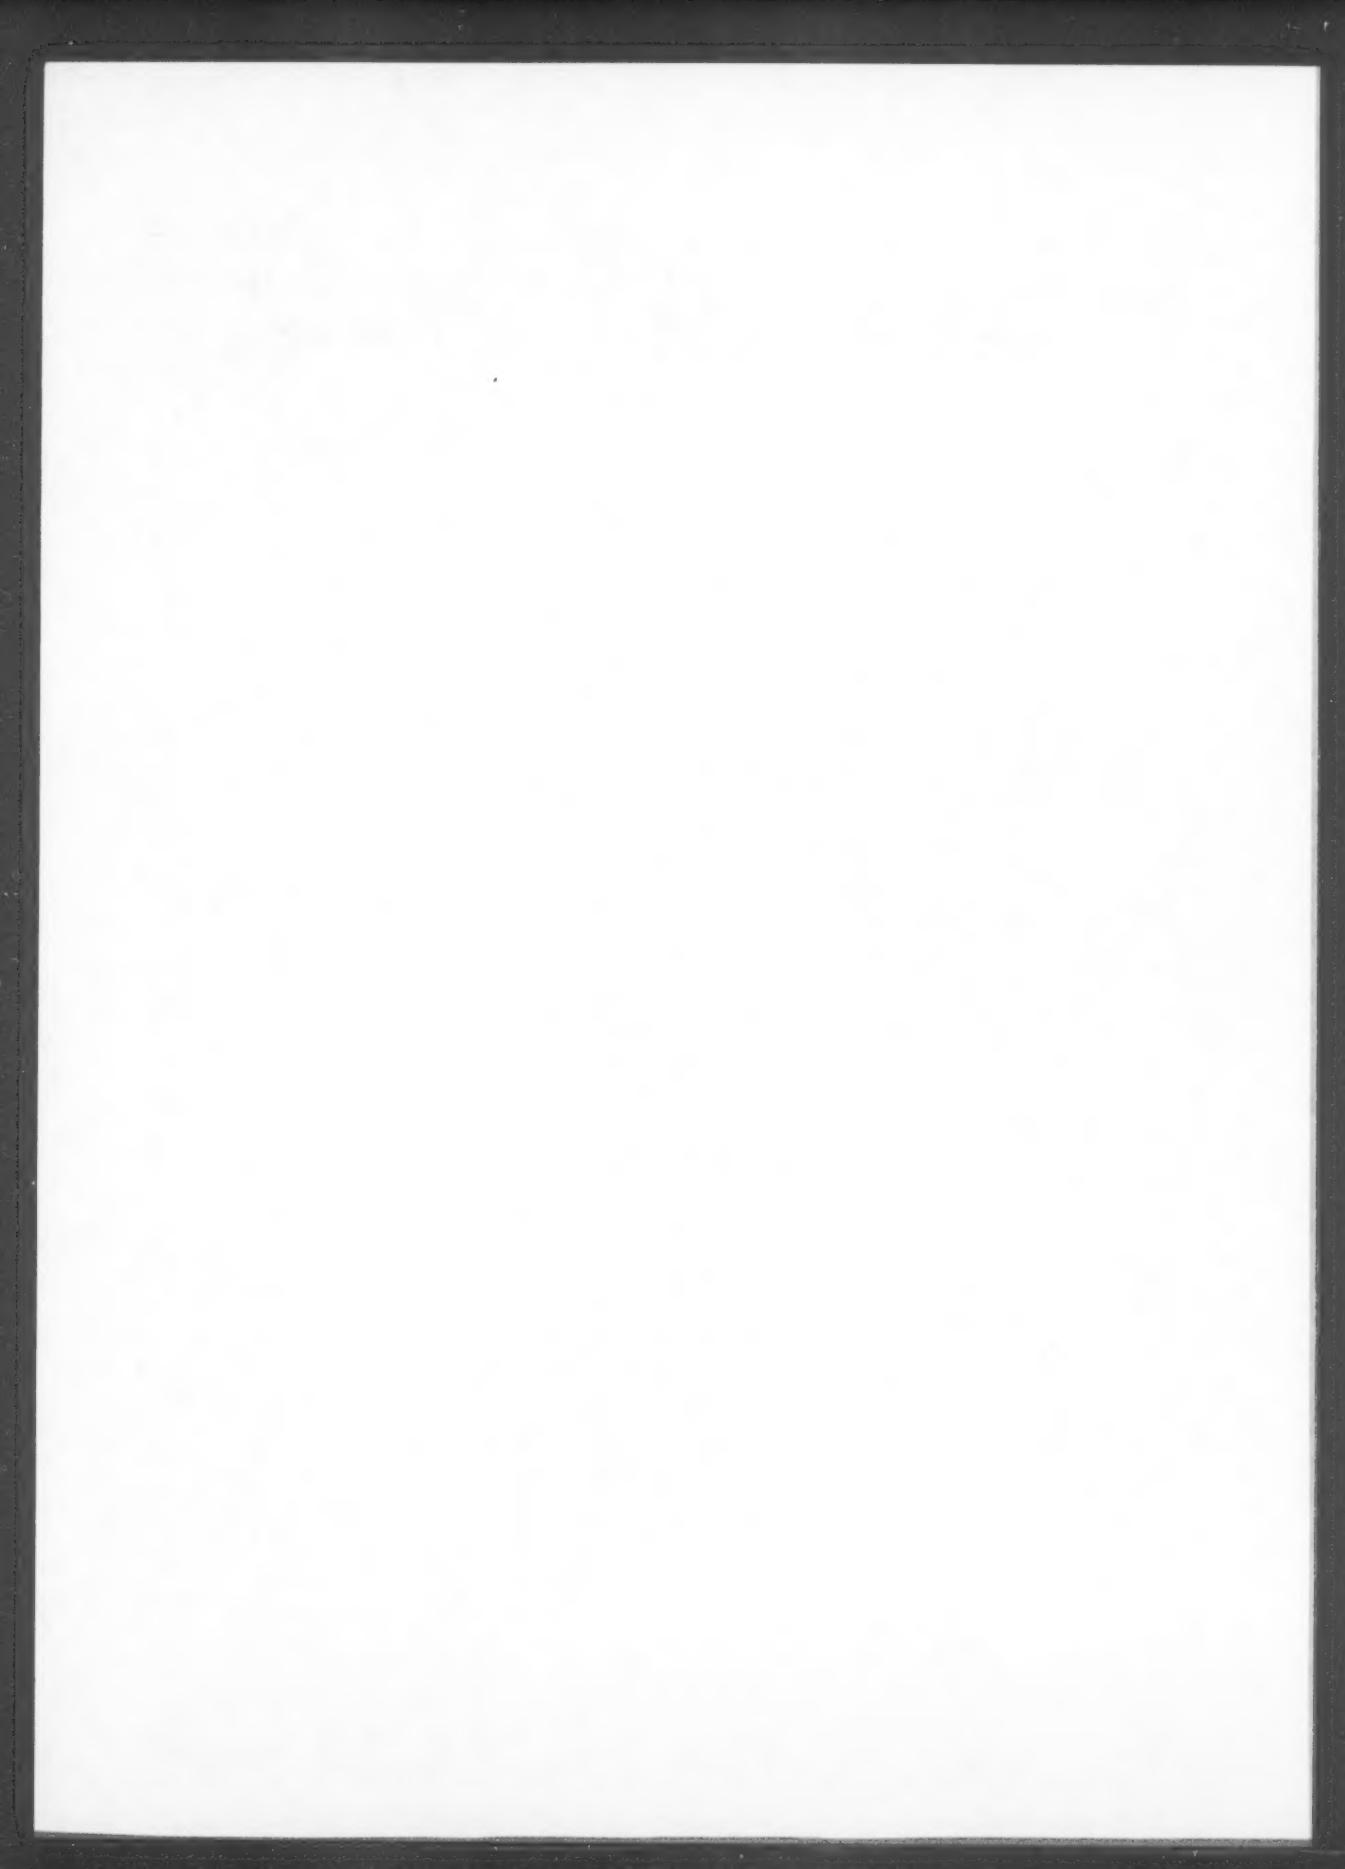

#### EDITORIAL ASSISTANT

Rosemary Dickinson, *Vancouver*

#### TYPESETTER

April D. Haisell, *Toronto*

VOLUME 44, 1997

# Canadian Journal of Anaesthesia

## Index of Authors

Volume 44, December 1997

NOTE: All articles without a category following (e.g., clinical report) are reports of investigation. References that begin with "A" or "R" are abstracts or refresher course outlines contained in the May *Annual Meeting Supplement*.

*Abajian JC*, see *Williams RK*, jt. auth.

*Abe K*, *Miyamoto T*, *Ohnishi K*. Hyperthermia after cardiac surgery (clinical report), 662  
see *Shimizu T*, jt. auth.

*Adams S*, see *St-Amand MA*, jt. auth.

*Adams TJ*, see *Grange CS*, jt. auth.

*Agostoni M*, see *Casati A*, jt. auth.

*Aibiki M*, see *Nishiyama T*, jt. auth.

*Al-Abdal OA*, see *Vagbadia H*, jt. auth.

*Aldegheri G*, see *Casati A*, jt. auth.

*Alhashemi JA*, *Crosby ET*, *Grodecki W*, *Duffy PJ*, *Hull KA*, *Gallant C*. Treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine vs diphenhydramine, 1060

- *Grodecki W*, *Crosby ET*, *Duffy PJ*, *Hull KA*. Effect of treatment of subarachnoid morphine-induced pruritus on postoperative nausea and vomiting (abstract), A18-B
- *Grodecki W*, *Crosby ET*, *Duffy PJ*, *Hull KA*. Treatment of intrathecal morphine-induced pruritus; diphenhydramine vs nalbuphine (abstract), A25-A
- *Lui ACP*, *Reid D*, *Cicutti N*, *Krebski B*. Effects of nebulized lidocaine on the hyperdynamic response to tracheal intubation (abstract), A4-A
- *Lui ACP*, *Reid D*, *Cicutti N*, *Krebski B*. Effects of superior laryngeal nerve block on heart rate and blood pressure responses to endotracheal intubation (abstract), A4-B
- *Miller DR*, *O'Brien HV*, *Hull KA*. Cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery, 118

*Ali M*, see *Davison PJ*, jt. auth.

*Ali NS*, see *Davison PJ*, jt. auth.

*Alihanka JJM*, see *Nikkola EM*, jt. auth.

*Al-Kaisi AA*, *Chan V*, *Peng P*, *Perlas A*, *Miniaci A*. Postoperative analgesic effect of low dose bupivacaine for interscalene brachial plexus block for shoulder surgery, a dose finding study (abstract), A60-A

*Al-Qatari M*, see *Hung OR*, jt. auth.

*Amaha K*, see *Saitoh T*, jt. auth.

*Ananthanarayan C*, *Cole AFD*, *Kazdan M*. Difficult intubation and brain-stem anaesthesia (clinical report), 658

*Anatol TI*, *Pitt-Miller P*, *Holder Y*. Trial of three methods of intraoperative bupivacaine analgesia for pain after paediatric groin surgery, 1053

*Andrade LOF*, see *Gomez RS*, jt. auth.

*Andrini P*, see *Bijaoui E*, jt. auth.

*Ansley D*, see *Dryden PJ*, jt. auth.

*Aranda JV*, see *Withington DE*, jt. auth.

*Archer DP*, *Roth SH*. Enhancement of CNS activity by thiopentone: comparison of nociceptive reflex thresholds with hippocampal electroencephalography (abstract), A35-A

- *Samanani N*, *Roth SH*. Nociceptive reflex thresholds in rats: measures of central nervous system effects of barbiturates (laboratory investigation), 765

*Arellano R*, see *Kolesar R*, jt. auth.  
see *Nishida O*, jt. auth.

*Armstrong K*, see *Ganapathy S*, jt. auth.

*Arndt GA*, *Gerry T*, *White P*. Postoperative reperfusion after rocuronium following nebulized epinephrine (clinical report), 321

*Arnell M*, see *Bignell SJ*, jt. auth.

*Arsenault M-Y*, see *Roy L*, jt. auth.

*Asch A*, see *Oyston JP*, jt. auth.

*Asokumar B*, see *Hossain I*, jt. auth.

*Aye T*, *Milne B*, *Ballantyne M*. Cardiac output estimation by visual inspection vs thermodilution during cardiac surgery, 126

*Ayoub J*, *Cobendy R*, *Dauzat M*, *Targhetta R*, *De La Coussaye JE*, *Bourgeois JM*, *Ramonatxo M*, *Prefaut C*, *Pourcelot L*. Non-invasive quantification of diaphragm kinetics using m-mode sonography (measurement technique), 739

*Bach A*, see *Schröter J*, jt. auth.

*Bachand M*, *Vachon N*, *Boisvert M*, *Mayer FM*, *Chartrand D*. Clinical reassessment of malignant hyperthermia in Abitibi-Témiscamingue, 696

*Backman SB*, *Gilron I*, *Robbins R*. Protamine-induced hypotension and bradycardia in a cardiac transplant patient (clinical report), 520

- *Stein RD*, *Fox GS*, *Polosa C*. Heart rate changes in cardiac transplant patients and in the denervated cat heart after edrophonium, 247  
see *Stein RD*, jt. auth.

*Baconnier P*, see *Bijaoui E*, jt. auth.

*Badner NH*, *Craen RA*, *Paul TL*, *Doyle JA*. Anesthesia preadmission assessment: a new approach through use of a screening tool (abstract), A70-B

- *Komar WE, Craen RA.* Patient attitudes regarding PCA and associated costs, 255
- *Murkin JM, Mohr J, McKenzie FN.* Same day cardiac surgery: a Canadian perspective (abstract), A5-B
- Bahar M, Cohen ML, Grinshpon Y, Chanimov M.* Spinal anaesthesia with midazolam in the rat (laboratory investigation), 208
- Baker AJ*, see *Reinders FX*, jt. auth.
- Ballantyne M*, see *Aye T*, jt. auth.  
see *Duncan PG*, jt. auth.  
see *Pattee C*, jt. auth.
- Bandla HPR, Smith DE, Kiernan MP.* Laryngeal mask airway facilitated fiberoptic bronchoscopy in infants, 1242
- Barbin C*, see *Fletcher D*, jt. auth.
- Barboteu A*, see *Fletcher D*, jt. auth.
- Barre J*, see *Lafont ND*, jt. auth.
- Basta M*, see *Cuillerier DJ*, jt. auth.  
see *Sharpe MD*, jt. auth.
- Bauman A*, see *Lee A*, jt. auth.
- Baxter AD.* Low and minimal flow inhalational anaesthesia (continuing medical education), 643
- Baxter FJ.* Septic shock (review article), 59
- Beamish T*, see *Milne A*, jt. auth.
- Beattie WS.* The effect of 24 hours of post-operative epidural analgesia on postoperative cardiac morbidity and mortality: a meta-analysis (abstract), A19-B
- Beccaria P*, see *Casati A*, jt. auth.
- Bechan SJ*, see *Lee A*, jt. auth.
- Bégon G*, see *Parlow J*, jt. auth.
- Bellmare F*, see *Jodoin C*, jt. auth.
- Belo S*, see *Warriner CB*, jt. auth.
- Bendahan D*, see *Kozak-Ribbens G*, jt. auth.
- Bender JS, Halpern SH, Thangaropan M, Jadad AR, Ohlsson A.* Quality and retrieval of obstetrical anaesthesia randomized controlled trials, 14
- Benedict C*, see *Cleave-Hogg D*, jt. auth.
- Bernadská E*, see *Snedden W*, jt. auth.
- Bernards CM, Kern C, Cullen BF.* Chronic cocaine administration does not modify haemodynamic responses to isoflurane anaesthesia in sheep (laboratory investigation), 202
- Bennett C*, see *Cascio M*, jt. auth.
- Berrill A*, see *Viskari D*, jt. auth.
- Berry AM*, see *Brimacombe JR*, jt. auth.
- Berti M*, see *Casati A*, jt. auth.
- Betts TA*, see *Sanderson PM*, jt. auth.
- Bevan DR*, see *McEwin L*, jt. auth.
- Bhavani-Shankar K, Moseley HSL, Mushlin PS, Hallsworth RA, Fakoory M, Walrond ER.* Anaesthesia in Barbados (special article), 559
- *Saliba Hart N, Mushlin PS.* Negative pressure induced airway and pulmonary injury (clinical report), 78
- Bignell SJ, Jones S, Sleigh J, Arnell M.* Prospective randomised double blind evaluation of epidural vs intravenous fentanyl (abstract), A67-A
- Bijaoui E, Carry PY, Eberhard A, Andrini P, Perdrix JP, Baconnier P.* La correction du débit en présence d'une fuite entre trachée et sonde endotrachéale (laboratory investigation), 216
- Billard V*, see *Giraud O*, jt. auth.
- Birey M*, see *Durak I*, jt. auth.
- Birgegård G*, see *Milbrink J*, jt. auth.
- Bishop MJ*, see *Choi JH*, jt. auth.
- Bissonnette B*, see *McAuliffe G*, jt. auth.
- Blair L*, see *Troncy E*, jt. auth.
- Blaise G, Guy C, To Q, Sauvé R.* Do enflurane and isoflurane interfere with the release, action, or stability of endothelium-derived relaxing factors? (laboratory investigation), 550
- *Yang F, Nguyen H, Troncy E, Czaika G.* Halothane does not attenuate the vasorelaxation induced by a nitric oxide solution (abstract), A45-B
- see *Troncy E*, jt. auth.
- Boisvert M*, see *Bachand M*, jt. auth.
- Boogaerts JG*, see *Lafont ND*, jt. auth.
- Booker PD*, see *Cheung SLW*, jt. auth.

## ANAESTHESIA

### Alternate funding

- does the method of payment affect anaesthetic practice? An evaluation of an Alternate Payment Plan: health care research (Duncan and Ballantyne), 503

### Ambulatory

- comparison of recovery following prophylactic ondansetron, dimenhydrinate and placebo in outpatient laparoscopy: abstract (Moote *et al*), A73-A
- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371
- EMLA® patch for intravenous cannulation in adult surgical outpatients (Vaghadia *et al*), 798
- intraoperative adverse events during ambulatory surgical procedures: abstract (Chung and Mezei), A70-A
- music increases satisfaction in elderly outpatients undergoing cataract surgery (Cruise *et al*), 43
- perphenazine decreases vomiting by children after tonsillectomy: brief report (Splinter and Roberts), 1308
- pharmacoeconomics of intravenous regional anaesthesia *vs* general anaesthesia for outpatient hand surgery (Chilvers *et al*), 1152
- propofol *vs* isoflurane for maintenance of general anaesthesia in outpatient bilateral reduction mammoplasty: abstract (Moote *et al*), A73-B
- readmission for bleeding following day care surgery: abstract (Scheepers and Vaghadia), A23-B
- recovery characteristics of sevoflurane and propofol after ambulatory urological surgery in children: abstract (Guard *et al*), A53-A
- same day cardiac surgery: a Canadian perspective: abstract (Badner *et al*), A5-B
- unscheduled post-operative discharge in same day admission surgery patients – incidence and causes: abstract (Vakharia *et al*), A23-A
- use of nitrous oxide improves outcome after brief outpatient surgery: abstract (Kolesar *et al*), A72-A
- vomiting after strabismus surgery in children: ondansetron *vs* propofol (Splinter *et al*), 825
- walk-in walk-out spinal anaesthesia for outpatient laparoscopy: evaluation of three hypobaric solutions: abstract (Viskari *et al*), A26-B

## ANAESTHESIA (continued)

## Arthroscopic

- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371
- propofol patient-controlled sedation during hip or knee arthroplasty in elderly patients (Ganapathy *et al*), 385

## Awareness

- awareness during general anesthesia: refresher course outline (Sebel), R124; R128
- intraoperative awareness in cardiac surgery with early extubation anaesthesia: abstract (Dowd *et al*), A8-A
- recall after total intravenous anaesthesia due to an equipment misuse: clinical report (Tong and Chung), 73

## Barbados, anaesthesia in

- anaesthesia in Barbados: special article (Bhavani-Shankar *et al*), 559

## Cardiac

- anterior cervical myelopathy in the early postoperative period: clinical report (Muñoz Corsini *et al*), 872
- aortic atherosclerotic plaque identified by epiaortic scanning predicts cerebral embolic load in cardiac surgery: abstract (St-Amand *et al*), A7-B
- aortic cannulation is associated with the greatest embolic load in cardiac surgery: abstract (St-Amand *et al*), A63-A
- cardiac output estimation by visual inspection *vs* thermodilution during cardiac surgery (Aye *et al*), 126
- cerebral hypoxia during cardiopulmonary bypass: a magnetic resonance imaging study: abstract (Wong *et al*), A24-B
- comparison of lorazepam alone *vs* lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146
- comparison of PCA *vs* IV (on demand) morphine analgesia in early extubated patients post CABG surgery: abstract (Hossain *et al*), A7-A
- continuous haemodiafiltration during and after cardiopulmonary bypass in renal failure patients: clinical report (Kubota *et al*), 1182
- depletion of activated neutrophils by a filter during cardiac valve surgery (Hurst *et al*), 131
- does radiant heat on the blush area inhibit shivering and decrease rewarming time through peripheral vasodilation? A proposed new method for rewarming postoperative cardiac and surgical patients: abstract (Cushing and Mills), A60-B

- dose-response to anaesthetic induction with sufentanil: haemodynamic and electroencephalographic effects (Sareen *et al*), 19
- the effect of 24 hours of post-operative epidural analgesia on postoperative cardiac morbidity and mortality - a meta-analysis: abstract (Beattie), A19-B
- the effect of antihypertensive agents on oxygenation following cardiac surgery: abstract (Wood), A62-B
- enhanced spontaneous antibody response after coronary artery bypass surgery (Salo *et al*), 617
- factors influencing MAC reduction after cardiopulmonary bypass in dogs: laboratory investigation (Neumeister *et al*), 1120
- heart rate changes in cardiac transplant patients and in the denervated cat heart after edrophonium (Backman *et al*), 247
- heparin/protamine dosing guided by *in vitro* testing does not reduce blood loss and transfusion in cardiac surgery: abstract (Côté), A9-B
- histamine release during cardiopulmonary bypass in neonates and infants (Withington and Aranda), 610
- hyperthermia after cardiac surgery: clinical report (Abe *et al*), 662
- interleukin-10 and interleukin-1 receptor antagonists increase during cardiac surgery (Kawamura *et al*), 38
- intraoperative awareness in cardiac surgery with early extubation anaesthesia: abstract (Dowd *et al*), A8-A
- morbidity outcome in patients undergoing cardiac septal myectomy - early extubation anaesthesia (EEA) *vs* high dose narcotic (HDN) anaesthesia: abstract (Cregg *et al*), A8-B
- myocardial ischemia in first day surgery patients undergoing coronary artery bypass graft surgery: abstract (Lye *et al*), A65-A
- the myocardium: refresher course outline (Foëx), R67; R73
- pharmacokinetics of sufentanil in patients undergoing coronary artery bypass grafting: abstract (Henderson *et al*), A63-B
- predictors of hospital mortality in CABG patients undergoing early extubation anaesthesia: abstract (Wong *et al*), A65-B
- predictors of prolonged extubation time (EXT) in CABG patients undergoing early extubation anaesthesia: abstract (Chen *et al*), A9-A
- propofol or midazolam for sedation and early extubation following cardiac surgery (Searle *et al*), 629

- a randomized double-blind study evaluating the haemodynamic effects of two doses of CIS-atracurium to vecuronium in patients undergoing CABG during O<sub>2</sub>/sufentanil/propofol anaesthesia: abstract (Searle *et al*), A64-B
- residual neuromuscular blockade after cardiac surgery: pancuronium *vs* rocuronium: brief report (McEwin *et al*), 891
- tranexamic acid reduces blood loss and transfusion in reoperative cardiac surgery (Dryden *et al*), 934
- ventricular perforation associated with central venous introducer-dilator systems: clinical report (Porter *et al*), 317

#### Cardiac bypass

- plasma levels of endothelin-like immunoreactivity during coronary bypass: abstract (Yang *et al*), A6-B

#### Cardiac risk

- concurrent subarachnoid haemorrhage and myocardial injury: clinical report (Raymer and Choi), 515

#### Cardiopulmonary bypass

- depletion of activated neutrophils by a filter during cardiac valve surgery (Hurst *et al*), 131
- factors influencing MAC reduction after cardiopulmonary bypass in dogs: laboratory investigation (Neumeister *et al*), 1120
- hyperthermia after cardiac surgery: clinical report (Abe *et al*), 662

#### Cardiothoracic

- anaesthesia for patients after lung transplantation: review article (Haddow), 182
- perioperative anaesthetic considerations for patients undergoing lung transplantation: review article (Singh and Bossard), 284

#### Cardiovascular

- anaesthesia for carotid artery surgery: refresher course outline (Mutch), R90; R96
- cardiac output estimation by visual inspection *vs* thermodilution during cardiac surgery (Aye *et al*), 126
- patients with aortic stenosis: cardiac complications in non-cardiac surgery: abstract (Raymer and Yang), A3-B
- protamine-induced hypotension and bradycardia in a cardiac transplant patient: clinical report (Backman *et al*), 520

#### Carotid endarterectomy

- comparison of cerebral oximeter and evoked potential monitoring in carotid endarterectomy (Duffy *et al*), 1077
- comparison of distal oesophageal temperature with "deep" and tracheal temperatures: clinical measurement (Matsukawa *et al*), 433

#### Coronary artery bypass

- enhanced spontaneous antibody response after coronary artery bypass surgery (Salo *et al*), 617

#### Depth

- assessment of level of consciousness during intravenous sedation: correlation between a trained observer and bispectral index: abstract (Mehta *et al*), A71-A
- awareness during general anaesthesia: refresher course outline (Sebel), R124; R128
- loss of consciousness and hypoxaemia in patients during sedation for digestive endoscopy: abstract (DeLima *et al*), A71-B
- recall after total intravenous anaesthesia due to an equipment misuse: clinical report (Tong and Chung), 73

#### Emergency room

- anaesthesia and analgesia in the emergency department: refresher course outline (Murphy), R52; R60

#### Extracorporeal shockwave lithotripsy

- continuous spinal anaesthesia using a standard epidural set for extracorporeal shockwave lithotripsy (Shenkman *et al*), 1042

#### Gastrectomy

- enhanced pain management for postgastrectomy patients with combined epidural morphine and fentanyl (Tanaka *et al*), 1047

#### Gynaecological

- prevention of PONV with granisetron, droperidol and metoclopramide in female patients with history of motion sickness (Fujii *et al*), 820
- same day drainage and removal of a giant ovarian cyst: clinical report (Nishiyama and Hanaoka), 1087
- sorbitol 2.5%/mannitol 0.54% irrigation solution for hysteroscopic endometrial ablation surgery (Moir *et al*), 473

#### Head and neck

- limits of laryngeal mask airway in patients after cervical or oral radiotherapy (Giraud *et al*), 1237

#### Intracranial aneurysm

- concurrent subarachnoid haemorrhage and myocardial injury: clinical report (Raymer and Choi), 515

#### Journals (see PUBLICATIONS)

#### Laparoscopic

##### *Cholecystectomy*

- granisetron reduces the incidence and severity of nausea and vomiting after laparoscopic cholecystectomy (Fujii *et al*), 396
- haemodynamic effects of mechanical peritoneal retraction during laparoscopic cholecystectomy (Couture *et al*), 467

**ANAESTHESIA (continued)****Laparoscopic (continued)**

- venous gas embolism - a comparison of carbon dioxide and helium in pigs: laboratory investigation (Rudston-Brown *et al*), 1102

**Neonate**

- combined spinal and epidural anaesthesia for major abdominal surgery in infants: clinical report (Williams *et al*), 511

**Neurosurgical**

- anaesthesia for stereotactic biopsy: a comparison of midazolam and propofol: abstract (Raman and Manninen), A35-B
- cerebral oxygen extraction during intracranial aneurysm surgery: the influence of  $\text{PaCO}_2$ : abstract (Orlay and Wong), A59-A
- comparison of cerebral oximeter and evoked potential monitoring in carotid endarterectomy (Duffy *et al*), 1077
- concurrent subarachnoid haemorrhage and myocardial injury: clinical report (Raymer and Choi), 515
- incidence of immediate postoperative complications in neurosurgical patients: abstract (Boyle *et al*), A36-A

**Neuroradiology**

- anaesthesia for neuroradiology: refresher course outline (Manninen), R34; R37
- conscious sedation for interventional neuroradiology: a comparison of midazolam and propofol infusion (Manninen *et al*), 26

**Obstetric**

- an emergency pocket drug case of the 1940s (Rao and Welsh), 896
- anaesthesia for phaeochromocytoma in pregnancy: clinical report (Hamilton *et al*), 654
- combined use of intrathecal morphine and non-steroidal anti-inflammatory drugs for post caesarean section analgesia: abstract (Roy *et al*), A15-A
- comparison of epidural fentanyl and lidocaine with subarachnoid sufentanil analgesia during labour: abstract (Giesinger *et al*), A16-B
- development of a maternal satisfaction scale for women undergoing caesarean section: item selection, validity and reliability: abstract (Morgan *et al*), A16-A
- direction of injection does not affect the spread of spinal bupivacaine in parturients (Massé *et al*), 816
- the effect of spinal anaesthesia on cerebral blood flow in parturients undergoing caesarean section: abstract (Grange *et al*), A15-B
- epidural analgesia for labour and delivery: informed consent issues (Pattee *et al*), 918

- labour analgesia with intrathecal fentanyl decreases maternal stress (Cascio *et al*), 605
- labour pain management in a parturient with an implanted intrathecal pump: clinical report (Tarshis *et al*), 1278
- patient-controlled epidural analgesia after Caesarean section using meperidine (Ngan Kee *et al*), 702
- peri-operative multi-modal pain therapy for Caesarean section: analgesia and fitness for discharge (Rosaeg *et al*), 803
- peripartum management of a patient with Isaacs' syndrome: clinical report (Morgan), 1174
- quality and retrieval of obstetrical anaesthesia randomized controlled trials (Bender *et al*), 14
- recombinant tissue type plasminogen activator treatment of thrombosed mitral valve prosthesis during pregnancy: clinical report (Fleyfel *et al*), 735
- treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine *vs* diphenhydramine (Alhashemi *et al*), 1060

**Ophthalmological****Cataract**

- brainstem anaesthesia after peribulbar anaesthesia: clinical report (Gomez *et al*), 732
- difficult intubation and brain-stem anaesthesia: clinical report (Ananthanarayan *et al*), 658

**Strabismus**

- dose-response of flurbiprofen on postoperative pain and emesis after paediatric strabismus surgery: brief report (Mikawa *et al*), 95
- low incidence of the oculocardiac reflex and post-operative nausea and vomiting in adults undergoing strabismus surgery (Tramèr *et al*), 830
- vomiting after strabismus surgery in children: ondansetron *vs* propofol (Splinter *et al*), 825

**Orthopaedic**

- cardiovascular collapse after femoral prosthesis surgery for acute hip fracture: clinical report (Pietak *et al*), 198
- clinical features and echocardiography of embolism during cemented hip arthroplasty (Lafont *et al*), 112
- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371
- a cost assessment of intraoperative blood salvage for primary total hip arthroplasty using the COBE BRAT 10 system: abstract (Smith and Crosby), A10-B
- efficacy of continuous femoral block following total knee arthroplasty: abstract (Ganapathy *et al*), A68-A

- influence of anaesthetic decision making on resource use in major joint replacement: abstract (Orkin), A11-A
- pre-emptive analgesia with ketamine, morphine and epidural lidocaine prior to total knee replacement (Wong *et al*), 31
- preoperative autologous donation of 6 units of blood during rh-EPO treatment: brief report (Milbrink *et al*), 1315
- propofol patient-controlled sedation during hip or knee arthroplasty in elderly patients (Ganapathy *et al*), 385
- a prospective quality assurance review of anaesthetic technique for lower extremity surgery: abstract (Farmer and Muir), A27-B
- relationship of fat embolism to haemodynamic and echocardiographic changes during cemented arthroplasty: laboratory investigation (Murphy *et al*), 1293

**Otolaryngological**

- perphenazine decreases vomiting by children after tonsillectomy: brief report (Splinter and Roberts), 1308
- subhypnotic propofol does not treat postoperative vomiting in children after adenotonsillectomy (Zestos *et al*), 401

**Paediatric**

- the adult Bullard laryngoscope in paediatric patients (Shulman *et al*), 969
- anaesthetic management of a patient with Leigh's syndrome: clinical report (Shenkman *et al*), 1091
- combined spinal and epidural anaesthesia for major abdominal surgery in infants: clinical report (Williams *et al*), 511
- detecting wakefulness in anaesthetised children (Byers and Muir), 486
- detection of intravascular injection of regional anaesthetics in children (Fisher *et al*), 592
- dose-response of flurbiprofen on postoperative pain and emesis after paediatric strabismus surgery: brief report (Mikawa *et al*), 95
- the effectiveness of oral clonidine as a perioperative analgesic in paediatric adenotonsillectomy: abstract (Dunn *et al*), A54-B
- epidural anaesthesia for ureteral reimplantation in an infant with congenital tracheal stenosis: clinical report (Concha *et al*), 666
- gastric fluid measurement by blind aspiration in paediatric patients: a gastroscopic evaluation (Cook-Sather *et al*), 168
- gastric fluid volume in infants for pyloromyotomy (Cook-Sather *et al*), 278
- heart rate and cardiac output after atropine in anaesthetised infants and children (McAuliffe *et al*), 154
- histamine release during cardiopulmonary bypass in neonates and infants (Withington and Aranda), 610
- increased cis-atracurium requirements during prolonged administration to a child: clinical report (Tobias), 82
- laryngeal mask airway facilitated fiberoptic bronchoscopy in infants (Bandla *et al*), 1242
- latex anaphylaxis during tissue expander insertion in a healthy child: clinical report (Zestos and Creighton), 1275
- monitoring orbicularis oculi predicts good intubating conditions after vecuronium in children (Plaud *et al*), 712
- perphenazine decreases vomiting by children after tonsillectomy: brief report (Splinter and Roberts), 1308
- plasma concentrations of flumazenil following intranasal administration in children: abstract (Scheepers *et al*), A54-A
- plasma levels of acetaminophen at 24 hours after a perioperative oral dose regimen of 20 mg/kg q6h in paediatrics: abstract (Sanderson *et al*), A55-A
- postoperative reanalysis after rocuronium following nebulized epinephrine: clinical report (Arndt *et al*), 321
- serum concentrations of bupivacaine during prolonged continuous paravertebral infusion in young infants: abstract (Cheung *et al*), A52-B
- subhypnotic propofol does not treat postoperative vomiting in children after adenotonsillectomy (Zestos *et al*), 401
- trial of three methods of intraoperative bupivacaine analgesia for pain after paediatric groin surgery (Anatol *et al*), 1053
- venous air embolism during orthotopic liver transplantation in a child: clinical report (Souron *et al*), 1187

**Phaeochromocytoma**

- anaesthesia for phaeochromocytoma in pregnancy: clinical report (Hamilton *et al*), 654

**Plastic surgery**

- latex anaphylaxis during tissue expander insertion in a healthy child: clinical report (Zestos and Creighton), 1275

**Potency, MAC**

- factors influencing MAC reduction after cardiopulmonary bypass in dogs: laboratory investigation (Neumeister *et al*), 1120

**ANAESTHESIA (continued)****Preoperative assessments (see PREOPERATIVE ASSESSMENTS)****Subarachnoid haemorrhage**

- concurrent subarachnoid haemorrhage and myocardial injury: clinical report (Raymer and Choi), 515

**Theories of anaesthetic action**

- effects of inhalational and local anaesthetics on the sensitive plant mimoso pudica: a potential model for the investigation of anaesthetic mechanisms: abstract (Milne and Beamish), A22-A
- magnesium deficiency increases ketamine sensitivity in rats: laboratory investigation (Orser *et al*), 883

**Thoracic**

- anaesthesia for tracheal resection - report of 17 cases: clinical report (Magnusson *et al*), 1282

**Urological**

- analgesia/sedation requirements during ESWL of renal calculi with the Siemens Lithostar Multiline: abstract (Hawboldt *et al*), A19-A
- electrotive drug administration (EMDA) of lidocaine for transurethral surgery: abstract (Sandler *et al*), A20-A

**Vascular**

- cerebral protection using retrograde cerebral perfusion during hypothermic circulatory arrest: preliminary report (Shenkman *et al*), 1096

**ANAESTHESIA HISTORY, see HISTORY OF ANAESTHESIA****ANAESTHESIOLOGY**

- the attitude of the general public toward anaesthetists and the prospect of general anaesthesia: abstract (Finegan and Finucane), A38-A

**Education (see EDUCATION)**

- perioperative cardiovascular evaluation and ACC/AHA guidelines - do we change our practice?: abstract (Davison *et al*), A64-A
- prospective quality assurance review of anaesthetic technique for lower extremity surgery: abstract (Farmer and Muir), A27-B
- public relations in anaesthesia: refresher course outline (Eltringham), R131; R134

**ANAESTHETIC TECHNIQUES****AMP**

- AMP and SNP induced alterations in regional vascular conductance in dogs with acute left ventricular dysfunction: abstract (Wachowski *et al*), A46-A

**Balanced**

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118

**Complications**

- detection of intravascular injection of regional anaesthetics in children (Fisher *et al*), 592

**Continuous haemodiafiltration**

- continuous haemodiafiltration during and after cardiopulmonary bypass in renal failure patients: clinical report (Kubota *et al*), 1182

**Epidural**

- bupivacaine decreases epidural meperidine requirements after abdominal surgery (St-Onge *et al*), 360
- combined spinal and epidural anaesthesia for major abdominal surgery in infants: clinical report (Williams *et al*), 511
- comparison of epidural fentanyl and lidocaine with subarachnoid sufentanil analgesia during labour: abstract (Giesinger *et al*), A16-B
- a comparison of simple tests to distinguish cerebrospinal fluid from saline (Walker and Brock-Utne), 494
- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371
- detection of intravascular injection of regional anaesthetics in children (Fisher *et al*), 592
- double-blind comparison of epidural ropivacaine 0.25% and bupivacaine 0.25%, for the relief of childbirth pain (Muir *et al*), 599
- the effect of 24 hours of post-operative epidural analgesia on postoperative cardiac morbidity and mortality - a meta-analysis: abstract (Beattie), A19-B
- epidural abscess after combined spinal-epidural block: clinical report (Schröter *et al*), 300
- epidural anaesthesia for ureteral reimplantation in an infant with congenital tracheal stenosis: clinical report (Concha *et al*), 666
- epidural analgesia for labour and delivery: informed consent issues (Pattee *et al*), 918
- labour analgesia with intrathecal fentanyl decreases maternal stress (Cascio *et al*), 605
- patient-controlled epidural analgesia after Caesarean section using meperidine (Ngan Kee *et al*), 702
- prospective randomised double blind evaluation of epidural *vs* intravenous fentanyl: abstract (Bignell *et al*), A67-A
- same day drainage and removal of a giant ovarian cyst: clinical report (Nishiyama and Hanaoka), 1087
- spinal artery syndrome masked by postoperative epidural analgesia: clinical report (Linz *et al*), 1178

- spinal somatosensory evoked potentials after epidural isoproterenol in awake sheep: laboratory report (Marcus *et al*), 85

**Extrapleural**

- serum bupivacaine concentrations during continuous extrapleural infusion (Dauphin *et al*), 367

**General**

- abdominal compartment syndrome: clinical report (Reeves *et al*), 308
- anaesthesia for patients after lung transplantation: review article (Haddow), 182
- anticholinergics improve fibreoptic intubating conditions during general anaesthesia (Brookman *et al*), 165
- clinical reassessment of malignant hyperthermia in Abitibi-Témiscamingue (Bachand *et al*), 696
- clonidine at induction reduces shivering after general anaesthesia (Buggy *et al*), 263
- continuous oesophageal aortic blood flow Doppler measurement during general anaesthesia in infants: measurement technique (Gueugniaud *et al*), 745
- enhanced spontaneous antibody response after coronary artery bypass surgery (Salo *et al*), 617
- laryngeal mask airway facilitated fibreoptic bronchoscopy in infants (Bandla *et al*), 1242
- pharmacoeconomics of intravenous regional anaesthesia *vs* general anaesthesia for outpatient hand surgery (Chilvers *et al*), 1152
- same day drainage and removal of a giant ovarian cyst: clinical report (Nishiyama and Hanaoka), 1087

**Hypotension, induced**

- AMP and SNP induced alterations in regional vascular conductance in dogs with acute left ventricular dysfunction: abstract (Wachowski *et al*), A46-A
- haemodynamic effects of hypotension induced by KRN2391 and nicardipine in isoflurane anaesthetized dogs: laboratory investigation (Takeda *et al*), 1002

**Induction**

- haemodynamic and catecholamine changes during rapid sevoflurane induction with tidal volume breathing (Nishiyama *et al*), 1066
- physostigmine increases the dose of propofol required to induce anaesthesia (Fassoulaki *et al*), 1148

**Inhalational**

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118

**Enflurane**

- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071

**Halothane**

- impaired antioxidant defence in guinea pig heart tissues treated with halothane: laboratory investigation (Durak *et al*), 1014

**Isoflurane**

- the effect of hypocapnia on cerebral blood volume during isoflurane anaesthesia in rabbits with brain tumours: abstract (Craen *et al*), A36-B
- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071
- low incidence of the oculocardiac reflex and postoperative nausea and vomiting in adults undergoing strabismus surgery (Tramèr *et al*), 830
- propofol *vs* isoflurane for maintenance of general anesthesia in outpatient bilateral reduction mammoplasty: abstract (Moote *et al*), A73-B
- median nerve somatosensory evoked potentials during isoflurane anaesthesia (Porkkala *et al*), 963
- new induction agents: refresher course outline (Scar), R3; R8

**Sevoflurane**

- haemodynamic and catecholamine changes during rapid sevoflurane induction with tidal volume breathing (Nishiyama *et al*), 1066
- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071

**Intrathecal morphine**

- the duration of action of intrathecal morphine; does timing of administration make a difference?: abstract (Schultz and Fear), A67-B
- treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine *vs* diphenhydramine (Alhashemi *et al*), 1060

**Intravenous**

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118
- pharmacoeconomics of intravenous regional anaesthesia *vs* general anaesthesia for outpatient hand surgery (Chilvers *et al*), 1152
- prospective randomised double blind evaluation of epidural *vs* intravenous fentanyl: abstract (Bignell *et al*), A67-A
- recall after total intravenous anaesthesia due to an equipment misuse: clinical report (Tong and Chung), 73

## ANAESTHESIA TECHNIQUES (continued)

## Intubation (see INTUBATION, TRACHEAL)

## Local

- anaesthesia for patients after lung transplantation: review article (Haddow), 182
- comparative topical anaesthesia of EMLA and liposome-encapsulated tetracaine (Hung *et al*), 707
- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371

## Low/minimal flow

- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643

## Monitored care, music

- music enhances patient controlled sedation for monitored anaesthesia care: abstract (Curran *et al*), A72-B

## Nerve block

- trial of three methods of intraoperative bupivacaine analgesia for pain after paediatric groin surgery (Anatol *et al*), 1053

## One lung ventilation

- arterial oxygenation during one lung ventilation: a comparison between isoflurane and sevoflurane (Shimizu *et al*), 1162

## Peribulbar

- brainstem anaesthesia after peribulbar anaesthesia: clinical report (Gomez *et al*), 732

## Position of patient

- effect of head-up position on speed of arterial haemoglobin oxygen desaturation at induction of general anaesthesia: abstract (Mashava and Chinyanga), A49-A

## Regional

- anaesthesia for patients after lung transplantation: review article (Haddow), 182

## Brachial plexus

- postoperative analgesic effect of low dose bupivacaine for interscalene brachial plexus block for shoulder surgery, a dose finding study: abstract (Al-Kaisi *et al*), A60-A
- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371

## Femoral nerve

- efficacy of continuous femoral block following total knee arthroplasty: abstract (Ganapathy *et al*), A68-A
- reducing pain after arthroscopic anterior cruciate ligament repair - comparison of ketorolac vs femoral nerve block: abstract (Peng *et al*), A69-B

## Intraperitoneal

- serum concentrations of lignocaine and pain relief after intraperitoneal administration during hysterectomy: abstract (Williamson and Smith), A66-A

## Intrapleural

- a retrospective review of the efficacy of intrapleural local anaesthetic injections via an indwelling catheter in the treatment of chronic thoracic pain: abstract (Vishnubala and Reid), A17-A

## Paravertebral

- serum concentrations of bupivacaine during prolonged continuous paravertebral infusion in young infants: abstract (Cheung *et al*), A52-B
- pharmacoeconomics of intravenous regional anaesthesia vs general anaesthesia for outpatient hand surgery (Chilvers *et al*), 1152

## Retrobulbar

- difficult intubation and brain-stem anaesthesia: clinical report (Ananthanarayan *et al*), 658

## Stellate ganglion block

- lidocaine tape relieves pain due to needle insertion during stellate ganglion block (Inada *et al*), 259

## Superior laryngeal nerve

- effects of superior laryngeal nerve block on heart rate and blood pressure responses to endotracheal intubation: abstract (Alhashemi *et al*), A4-B

## SNP

- AMP and SNP induced alterations in regional vascular conductance in dogs with acute left ventricular dysfunction: abstract (Wachowski *et al*), A46-A

## Spinal

- assessment of a new ultrafiltration blood processing system: equipment review (Duffy *et al*), 1204
- cardiac performance during unilateral lumbar spinal block after crystalloid preload (Casati *et al*), 623
- combined spinal and epidural anaesthesia for major abdominal surgery in infants: clinical report (Williams *et al*), 511
- comparison of epidural fentanyl and lidocaine with subarachnoid sufentanil analgesia during labour: abstract (Giesinger *et al*), A16-B
- a comparison of simple tests to distinguish cerebrospinal fluid from saline (Walker and Brock-Utne), 494
- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371

- continuous spinal anaesthesia using a standard epidural set for extracorporeal shockwave lithotripsy (Shenkman *et al*), 1042
- density of various local anaesthetic-opioid solutions and their spread in an *in vitro* model of the spinal canal: abstract (Money *et al*), A28-A
- direction of injection does not affect the spread of spinal bupivacaine in parturients (Massé *et al*), 816
- dose-dependency of minimum effective anaesthetic concentration (MEAC) of hyperbaric lidocaine for spinal anaesthesia: abstract (Peng and Chan), A69-A
- the duration of action of intrathecal morphine; does timing of administration make a difference?: abstract (Schultz and Fear), A67-B
- the effect of spinal anaesthesia on cerebral blood flow in parturients undergoing caesarean section: abstract (Grange *et al*), A15-B
- epidural abscess after combined spinal-epidural block: clinical report (Schröter *et al*), 300
- labour analgesia with intrathecal fentanyl decreases maternal stress (Cascio *et al*), 605
- peri-operative multi-modal pain therapy for Caesarean section: analgesia and fitness for discharge (Rosacq *et al*), 803
- spinal anaesthesia with midazolam in the rat: laboratory investigation (Bahar *et al*), 208
- walk-in walk-out spinal anaesthesia for outpatient laparoscopy: evaluation of three hypobaric solutions: abstract (Viskari *et al*), A26-B

#### Subarachnoid

- treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine *vs* diphenhydramine (Alhashemi *et al*), 1060

#### Test-dose

- detection of intravascular injection of regional anaesthetics in children (Fisher *et al*), 592
- spinal somatosensory evoked potentials after epidural isoproterenol in awake sheep: laboratory report (Marcus *et al*), 85

#### Thoracic epidurals, local anaesthetic

- neuropathies masquerading as an epidural complication: clinical report (Kahn), 313

### ANAESTHETICS, GASES

#### Nitrous oxide

- haemodynamic comparison of sevoflurane and isoflurane anaesthesia in surgical patients (Inada *et al*), 140
- inhibition of cerebral metabolic and circulatory responses to nitrous oxide by 6-hydroxydopamine in dogs: laboratory investigation (Nakanishi *et al*), 1008

- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643
- low incidence of the oculocardiac reflex and postoperative nausea and vomiting in adults undergoing strabismus surgery (Tramèr *et al*), 830
- use of nitrous oxide improves outcome after brief outpatient surgery: abstract (Kolesar *et al*), A72-A

### ANAESTHETICS, INTRAVENOUS

#### Alfentanil

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118

#### Fentanyl

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118

#### Ketamine

- ketamine inhibits nitric oxide synthase in lipopolysaccharide-treated rat alveolar macrophages: laboratory investigation (Li *et al*), 989
- magnesium deficiency increases ketamine sensitivity in rats: laboratory investigation (Orser *et al*), 883
- suppression of cyclic guanosine monophosphate formation in rat cerebellar slices by propofol, ketamine and midazolam: laboratory investigation (Miyawaki *et al*), 1301

#### Midazolam

- anaesthesia for stereotactic biopsy: a comparison of midazolam and propofol: abstract (Raman and Manninen), A35-B
- conscious sedation for interventional neuroradiology: a comparison of midazolam and propofol infusion (Manninen *et al*), 26
- propofol or midazolam for sedation and early extubation following cardiac surgery (Searle *et al*), 629
- suppression of cyclic guanosine monophosphate formation in rat cerebellar slices by propofol, ketamine and midazolam: laboratory investigation (Miyawaki *et al*), 1301
- new induction agents: refresher course outline (Searle), R3; R8

#### Patient-controlled

- propofol patient-controlled sedation during hip or knee arthroplasty in elderly patients (Ganapathy *et al*), 385

#### Pentobarbitone

- nociceptive reflex thresholds in rats: measures of central nervous system effects of barbiturates: laboratory investigation (Archer *et al*), 765

## ANAESTHETICS, INTRAVENOUS (continued)

## Propofol

- anaesthesia for stereotactic biopsy: a comparison of midazolam and propofol: abstract (Raman and Manninen), A35-B
- conscious sedation for interventional neuroradiology: a comparison of midazolam and propofol infusion (Manninen *et al*), 26
- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118
- low incidence of the oculocardiac reflex and post-operative nausea and vomiting in adults undergoing strabismus surgery (Tramèr *et al*), 830
- physostigmine increases the dose of propofol required to induce anaesthesia (Fassoulaki *et al*), 1148
- propofol inhibits medullary pressor mechanisms in cats: laboratory investigation (Yang *et al*), 775
- propofol or midazolam for sedation and early extubation following cardiac surgery (Searle *et al*), 629
- propofol patient-controlled sedation during hip or knee arthroplasty in elderly patients (Ganapathy *et al*), 385
- propofol *vs* isoflurane for maintenance of general anaesthesia in outpatient bilateral reduction mammoplasty: abstract (Moote *et al*), A73-B
- propofol-thiopental stability study: abstract (Lazar *et al*), A21-B
- recovery characteristics of sevoflurane and propofol after ambulatory urological surgery in children: abstract (Guard *et al*), A53-A
- suppression of cyclic guanosine monophosphate formation in rat cerebellar slices by propofol, ketamine and midazolam: laboratory investigation (Miyawaki *et al*), 1301
- vomiting after strabismus surgery in children: ondansetron *vs* propofol (Splinter *et al*), 825

## Sufentanil

- dose-response to anaesthetic induction with sufentanil: haemodynamic and electroencephalographic effects (Sareen *et al*), 19
- pharmacokinetics of sufentanil in patients undergoing coronary artery bypass grafting: abstract (Henderson *et al*), A63-B

## Thiopental

- propofol-thiopental stability study: abstract (Lazar *et al*), A21-B

## Thiopentone

- cigarette smoking does not affect thiopentone pharmacodynamic or pharmacokinetic behaviour (Teiriä *et al*), 1269

- enhancement of CNS activity by thiopentone: comparison of nocifensive reflex thresholds with hippocampal electroencephalography: abstract (Archer and Roth), A35-A
- nocifensive reflex thresholds in rats: measures of central nervous system effects of barbiturates: laboratory investigation (Archer *et al*), 765

## ANAESTHETICS, LOCAL

## Bupivacaine

- bupivacaine decreases epidural meperidine requirements after abdominal surgery (St-Onge *et al*), 360
- cardiac performance during unilateral lumbar spinal block after crystalloid preload (Casati *et al*), 623
- direction of injection does not affect the spread of spinal bupivacaine in parturients (Massé *et al*), 816
- double-blind comparison of epidural ropivacaine 0.25% and bupivacaine 0.25%, for the relief of childbirth pain (Muir *et al*), 599
- postoperative analgesic effect of low dose bupivacaine for interscalene brachial plexus block for shoulder surgery, a dose finding study: abstract (Al-Kaisi *et al*), A60-A
- serum bupivacaine concentrations during continuous extrapleural infusion (Dauphin *et al*), 367
- serum concentrations of bupivacaine during prolonged continuous paravertebral infusion in young infants: abstract (Cheung *et al*), A52-B
- trial of three methods of intraoperative bupivacaine analgesia for pain after paediatric groin surgery (Anatol *et al*), 1053

## Chloroprocaine

- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371

## Cocaine

- natural inhibitors of cholinesterases: implications for adverse drug reactions: medical intelligence (Krasowski *et al*), 525
- density of spinal anaesthetics after addition of neuroaxial opioids: abstract (Hare and Ngan), A26-A
- density of various local anaesthetic-opioid solutions and their spread in an *in vitro* model of the spinal canal: abstract (Money *et al*), A28-A
- effects of inhalational and local anaesthetics on the sensitive plant mimosa pudica: a potential model for the investigation of anaesthetic mechanisms: abstract (Milne and Beamish), A22-A

## EMLA

- comparative topical anaesthesia of EMLA and liposome-encapsulated tetracaine (Hung *et al*), 707
- EMLA® patch for intravenous cannulation in adult surgical outpatients (Vaghadia *et al*), 798

**Lidocaine**

- a comparison of three regional anaesthesia techniques for outpatient knee arthroscopy (Goranson *et al*), 371
- dose-dependency of minimum effective anaesthetic concentration (MEAC) of hyperbaric lidocaine for spinal anaesthesia: abstract (Peng and Chan), A69-A
- EMLA® patch for intravenous cannulation in adult surgical outpatients (Vaghadia *et al*), 798
- fasciculations, myalgia and biochemical changes following succinylcholine with atracurium and lidocaine pretreatment (Raman and San), 498
- lidocaine alters the membrane properties of neurons in the thalamus – the gateway to sensorium: abstract (Schwarz and Puij), A37-B
- lidocaine tape relieves pain due to needle insertion during stellate ganglion block (Inada *et al*), 259
- spinal anaesthesia with midazolam in the rat: laboratory investigation (Bahar *et al*), 208

**Midazolam**

- spinal anaesthesia with midazolam in the rat: laboratory investigation (Bahar *et al*), 208

**Prilocaine, topical**

- EMLA® patch for intravenous cannulation in adult surgical outpatients (Vaghadia *et al*), 798

**Ropivacaine**

- double-blind comparison of epidural ropivacaine 0.25% and bupivacaine 0.25%, for the relief of childbirth pain (Muir *et al*), 599

**Tetracaine**

- comparative topical anaesthesia of EMLA and liposome-encapsulated tetracaine (Hung *et al*), 707

**ANAESTHETICS, VOLATILE****Desflurane**

- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643
- a mathematical evaluation of the temperature dependence of the vapor pressure of desflurane: abstract (Sosis and Robles), A21-A
- effects of inhalational and local anaesthetics on the sensitive plant mimosa pudica: a potential model for the investigation of anaesthetic mechanisms: abstract (Milne and Beamish), A22-A

**Enflurane**

- do enflurane and isoflurane interfere with the release, action, or stability of endothelium-derived relaxing factors?: laboratory investigation (Blaise *et al*), 550
- factors influencing MAC reduction after cardiopulmonary bypass in dogs: laboratory investigation (Neumeister *et al*), 1120
- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071

**Halothane**

- halothane and isoflurane enhance melanoma tumour metastasis in mice: laboratory report (Moudgil and Singal), 90
- halothane does not attenuate the vasorelaxation induced by a nitric oxide solution: abstract (Blaise *et al*), A45-B
- halothane inhibition of acetylcholine-induced relaxation in rat mesenteric artery and aorta: laboratory report (Iranami *et al*), 1196
- impaired antioxidant defence in guinea pig heart tissues treated with halothane: laboratory investigation (Durak *et al*), 1014
- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426

**Isoflurane**

- arterial oxygenation during one lung ventilation: a comparison between isoflurane and sevoflurane (Shimizu *et al*), 1162
- chronic cocaine administration does not modify haemodynamic responses to isoflurane anaesthesia in sheep: laboratory investigation (Bernards *et al*), 202
- continuous oesophageal aortic blood flow echo-Doppler measurement during general anaesthesia in infants: measurement technique (Gueugniaud *et al*), 745
- do enflurane and isoflurane interfere with the release, action, or stability of endothelium-derived relaxing factors?: laboratory investigation (Blaise *et al*), 550
- the effect of hypoxia on cerebral blood volume during isoflurane anaesthesia in rabbits with brain tumours: abstract (Craen *et al*), A36-B
- factors influencing MAC reduction after cardiopulmonary bypass in dogs: laboratory investigation (Neumeister *et al*), 1120
- haemodynamic comparison of sevoflurane and isoflurane anaesthesia in surgical patients (Inada *et al*), 140
- halothane and isoflurane enhance melanoma tumour metastasis in mice: laboratory report (Moudgil and Singal), 90
- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071
- intrathecal neurokinin-1 receptor antagonist reduces isoflurane MAC in rats: laboratory investigation (Ishizaki *et al*), 543
- isoflurane inhibits endothelium-mediated nitric oxide relaxing pathways in the isolated perfused rabbit lung: laboratory investigation (Oshima *et al*), 1108

## ANAESTHETICS, VOLATILE (continued)

## Isoflurane (continued)

- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643
- low incidence of the oculocardiac reflex and postoperative nausea and vomiting in adults under-going strabismus surgery (Tramèr *et al*), 830
- median nerve somatosensory evoked potentials during isoflurane anaesthesia (Porkkala *et al*), 963
- platelet aggregation is impaired during anaesthesia with sevoflurane but not with isoflurane (Hirakata *et al*), 1157
- propofol *vs* isoflurane for maintenance of general anaesthesia in outpatient bilateral reduction mammoplasty: abstract (Moote *et al*), A73-B
- reduction in post-intubation respiratory resistance by isoflurane and albuterol (Choi *et al*), 717
- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426

## Sevoflurane

- arterial oxygenation during one lung ventilation: a comparison between isoflurane and sevoflurane (Shimizu *et al*), 1162
- cerebrovascular CO<sub>2</sub> reactivity in elderly and younger adult patients during sevoflurane anaesthesia (Nishiyama *et al*), 160
- haemodynamic and catecholamine changes during rapid sevoflurane induction with tidal volume breathing (Nishiyama *et al*), 1066
- haemodynamic comparison of sevoflurane and isoflurane anaesthesia in surgical patients (Inada *et al*), 140
- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071
- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643
- platelet aggregation is impaired during anaesthesia with sevoflurane but not with isoflurane (Hirakata *et al*), 1157
- recovery characteristics of sevoflurane and propofol after ambulatory urological surgery in children: abstract (Guard *et al*), A53-A
- sevoflurane does not appear to have any effect on SA node function and intraatrial conduction in Wolff-Parkinson-White Syndrome (WPW): abstract (Cuillerier *et al*), A22-B
- sevoflurane does not appear to have electrophysiological effects upon the accessory pathway in Wolff-Parkinson-White (WPW) patients: abstract (Sharpe *et al*), A46-B

- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426

## ANALGESIA

- analgesia/sedation requirements during ESWL of renal calculi with the Siemens Lithostar Multiline: abstract (Hawboldt *et al*), A19-A

## Combination

- postoperative analgesia with *iv* propacetamol and ketoprofen combination after disc surgery (Fletcher *et al*), 479
- electromotive drug administration (EMDA) of lidocaine for transurethral surgery: abstract (Sandler *et al*), A20-A

## Emergency room

- anaesthesia and analgesia in the emergency department: refresher course outline (Murphy), R52; R60

## Intensive care unit

- sedation, analgesia and muscle relaxation and the critically ill patient: refresher course outline (Park), R40; R46

## Local

- trial of three methods of intraoperative bupivacaine analgesia for pain after paediatric groin surgery (Anatol *et al*), 1053

## Obstetric

- double-blind comparison of epidural ropivacaine 0.25% and bupivacaine 0.25%, for the relief of childbirth pain (Muir *et al*), 599
- intravenous fentanyl PCA during labour (Nikkola *et al*), 1248
- labour analgesia with intrathecal fentanyl decreases maternal stress (Cascio *et al*), 605
- labour pain management in a parturient with an implanted intrathecal pump: clinical report (Tarshis *et al*), 1278
- peri-operative multi-modal pain therapy for Caesarean section: analgesia and fitness for discharge (Rosaeg *et al*), 803
- sufentanil transfer in the human placenta during *in vitro* perfusion: laboratory investigation (Krishna *et al*), 996

## Patient-controlled

- acute pain: guidelines for care: refresher course outline (Sandler), R137; R142
- comparison of PCA *vs* IV (on demand) morphine analgesia in early extubated patients post CABG surgery: abstract (Hossain *et al*), A7-A
- comparison of tramadol and tramadol/droperidol mixture for patient-controlled analgesia (Ng *et al*), 810

- intravenous fentanyl PCA during labour (Nikkola *et al*), 1248
- patient attitudes regarding PCA and associated costs (Badner *et al*), 255
- patient-controlled epidural analgesia after Caesarean section using meperidine (Ngan Kee *et al*), 702
- postoperative analgesia with *iv* propacetamol and ketoprofen combination after disc surgery (Fletcher *et al*), 479
- postoperative pain management with IV sufentanil PCA: a prospective open study: abstract (De Kock *et al*), A18-A

**Postoperative**

- acute pain: guidelines for care: refresher course outline (Sandler), R137; R142
- combined use of intrathecal morphine and non-steroidal anti-inflammatory drugs for post caesarean section analgesia: abstract (Roy *et al*), A15-A
- comparison of pre-emptive analgesic effects of epidural *vs* intravenous fentanyl: abstract (Calikyan *et al*), A68-B
- the effect of 24 hours of post-operative epidural analgesia on postoperative cardiac morbidity and mortality – a meta-analysis: abstract (Beattie), A19-B
- effect of treatment of subarachnoid morphine-induced pruritus on postoperative nausea and vomiting: abstract (Alhashemi *et al*), A18-B
- enhanced pain management for postgastrectomy patients with combined epidural morphine and fentanyl (Tanaka *et al*), 1047
- neuropathies masquerading as an epidural complication: clinical report (Kahn), 313
- patient attitudes regarding PCA and associated costs (Badner *et al*), 255
- patient-controlled epidural analgesia after Caesarean section using meperidine (Ngan Kee *et al*), 702
- postoperative analgesia with *iv* propacetamol and ketoprofen combination after disc surgery (Fletcher *et al*), 479
- postoperative analgesic effect of low dose bupivacaine for interscalene brachial plexus block for shoulder surgery, a dose finding study: abstract (Al-Kaisi *et al*), A60-A
- reducing pain after arthroscopic anterior cruciate ligament repair – comparison of ketorolac *vs* femoral nerve block: abstract (Peng *et al*), A69-B
- serum concentrations of lignocaine and pain relief after intraperitoneal administration during hysterectomy: abstract (Williamson and Smith), A66-A
- transdermal fentanyl system plus *im* ketorolac for the treatment of postoperative pain (Reinhart *et al*), 377

**Pre-emptive**

- comparison of pre-emptive analgesic effects of epidural *vs* intravenous fentanyl: abstract (Calikyan *et al*), A68-B
- peri-operative multi-modal pain therapy for Caesarean section: analgesia and fitness for discharge (Rosaeg *et al*), 803
- prospective randomised double blind evaluation of epidural *vs* intravenous fentanyl: abstract (Bignell *et al*), A67-A

**ANALGESICS**

**Acetaminophen**

- plasma levels of acetaminophen at 24 hours after a perioperative oral dose regimen of 20 mg/kg q6h in paediatrics: abstract (Sanderson *et al*), A55-A

**Addiction**

- the drug addicted patient: refresher course outline (Cheng), R101; R107

**Alfentanil**

- postoperative nausea and vomiting (PONV); comparison of intraoperative use of alfentanil, fentanyl and sufentanil: abstract (Langevin *et al*), A25-B

**Clonidine**

- alpha-2 adrenergic agonists: refresher course outline (Maze), R13; R19
- the effectiveness of oral clonidine as a perioperative analgesic in paediatric adenotonsillectomy: abstract (Dunn *et al*), A54-B

**Codeine**

- the efficacy of intramuscular (IM) codeine for post-craniotomy pain: abstract (Williams *et al*), A28-B

**Dextromedetomidine**

- alpha-2 adrenergic agonists: refresher course outline (Maze), R13; R19

**Fentanyl**

- comparison of pre-emptive analgesic effects of epidural *vs* intravenous fentanyl: abstract (Calikyan *et al*), A68-B
- enhanced pain management for postgastrectomy patients with combined epidural morphine and fentanyl (Tanaka *et al*), 1047
- intravenous fentanyl PCA during labour (Nikkola *et al*), 1248
- labour analgesia with intrathecal fentanyl decreases maternal stress (Cascio *et al*), 605
- labour pain management in a parturient with an implanted intrathecal pump: clinical report (Tarshis *et al*), 1278

**ANALGESICS (continued)****Fentanyl (continued)****Liposome-encapsulated**

- pharmacokinetics of multiple doses of inhaled liposome-encapsulated fentanyl (LEF) in healthy volunteers: abstract (Hung *et al*), A47-B
- respiratory effects of repeated pulmonary administration of liposome-encapsulated fentanyl (LEF) in healthy volunteers: abstract (Hung *et al*), A48-A
- opioid sedation does not alter intracranial pressure in head injured patients (Lauer *et al*), 929
- postoperative nausea and vomiting (PONV); comparison of intraoperative use of alfentanil, fentanyl and sufentanil: abstract (Langevin *et al*), A25-B
- prospective randomised double blind evaluation of epidural *vs* intravenous fentanyl: abstract (Bignell *et al*), A67-A
- transdermal fentanyl system plus *im* ketorolac for the treatment of postoperative pain (Reinhart *et al*), 377

**Heroin**

- natural inhibitors of cholinesterases: implications for adverse drug reactions: medical intelligence (Krasowski *et al*), 525

**Ketamine**

- pre-emptive analgesia with ketamine, morphine and epidural lidocaine prior to total knee replacement (Wong *et al*), 31

**Ketoprofen**

- postoperative analgesia with *iv* propacetamol and ketoprofen combination after disc surgery (Fletcher *et al*), 479

**Ketorolac**

- reducing pain after arthroscopic anterior cruciate ligament repair – comparison of ketorolac *vs* femoral nerve block: abstract (Peng *et al*), A69-B
- transdermal fentanyl system plus *im* ketorolac for the treatment of postoperative pain (Reinhart *et al*), 377

**Lidocaine**

- labour analgesia with intrathecal fentanyl decreases maternal stress (Cascio *et al*), 605

**Meperidine**

- bupivacaine decreases epidural meperidine requirements after abdominal surgery (St-Onge *et al*), 360
- patient-controlled epidural analgesia after Caesarean section using meperidine (Ngan Kee *et al*), 702

**Morphine**

- combined use of intrathecal morphine and non-steroidal anti-inflammatory drugs for post

caesarean section analgesia: abstract (Roy *et al*), A15-A

- compatibility of morphine and toradol as a mixture: abstract (Cole *et al*), A20-B
- the duration of action of intrathecal morphine; does timing of administration make a difference?: abstract (Schultz and Fear), A67-B
- enhanced pain management for postgastrectomy patients with combined epidural morphine and fentanyl (Tanaka *et al*), 1047
- opioid sedation does not alter intracranial pressure in head injured patients (Lauer *et al*), 929
- postoperative analgesia with *iv* propacetamol and ketoprofen combination after disc surgery (Fletcher *et al*), 479
- pre-emptive analgesia with ketamine, morphine and epidural lidocaine prior to total knee replacement (Wong *et al*), 31
- treatment of intrathecal morphine-induced pruritus; diphenhydramine *vs* nalbuphine: abstract (Alhashemi *et al*), A25-A

**NSAIDs**

- combined use of intrathecal morphine and non-steroidal anti-inflammatory drugs for post caesarean section analgesia: abstract (Roy *et al*), A15-A
- compatibility of morphine and toradol as a mixture: abstract (Cole *et al*), A20-B
- dose-response of flurbiprofen on postoperative pain and emesis after paediatric strabismus surgery: brief report (Mikawa *et al*), 95
- reducing pain after arthroscopic anterior cruciate ligament repair – comparison of ketorolac *vs* femoral nerve block: abstract (Peng *et al*), A69-B

**Opioids**

- intravenous fentanyl PCA during labour (Nikkola *et al*), 1248
- opioid sedation does not alter intracranial pressure in head injured patients (Lauer *et al*), 929

**Pethidine**

- patient-controlled epidural analgesia after Caesarean section using meperidine (Ngan Kee *et al*), 702

**Propacetamol**

- postoperative analgesia with *iv* propacetamol and ketoprofen combination after disc surgery (Fletcher *et al*), 479

**Remifentanil**

- natural inhibitors of cholinesterases: implications for adverse drug reactions: medical intelligence (Krasowski *et al*), 525

**Sufentanil**

- opioid sedation does not alter intracranial pressure in head injured patients (Lauer *et al*), 929
- postoperative nausea and vomiting (PONV); comparison of intraoperative use of alfentanil, fentanyl and sufentanil: abstract (Langevin *et al*), A25-B
- sufentanil transfer in the human placenta during *in vitro* perfusion: laboratory investigation (Krishna *et al*), 996

**Tramadol**

- comparison of tramadol and tramadol/droperidol mixture for patient-controlled analgesia (Ng *et al*), 810

**Transdermal**

- transdermal fentanyl system plus *im* ketorolac for the treatment of postoperative pain (Reinhart *et al*), 377

**ANTAGONISTS****CP96,345/Intrathecal administration**

- intrathecal neurokinin-1 receptor antagonist reduces isoflurane MAC in rats: laboratory investigation (Ishizaki *et al*), 543

**Flumazenil**

- plasma concentrations of flumazenil following intranasal administration in children: abstract (Scheepers *et al*), A54-A

**Neuromuscular relaxants (see also NEUROMUSCULAR RELAXANTS)**

- heart rate changes in cardiac transplant patients and in the denervated cat heart after edrophonium (Backman *et al*), 247
- neostigmine requirements for reversal of neuromuscular blockade following an infusion of mivacurium (Lessard *et al*), 836
- physostigmine increases the dose of propofol required to induce anaesthesia (Fassoulaki *et al*), 1148
- bradycardia produced by pyridostigmine and physostigmine: laboratory investigation (Stein *et al*), 1286

**ANTERIOR SPINAL ARTERY SYNDROME,  
see under SYNDROMES****ANTICHOLINESTERASE**

- tacrine does not alter the potency of succinylcholine in the rat: laboratory investigation (Ibebungo *et al*), 1021

**ANTIEMETICS****Dolasetron**

- intravenous dolasetron mesilate ameliorates postoperative nausea and vomiting (Diemunsch *et al*), 173
- prophylactic oral dolasetron mesylate reduces nausea and vomiting after abdominal hysterectomy (Warriner *et al*), 1167

**Droperidol**

- comparison of tramadol and tramadol/droperidol mixture for patient-controlled analgesia (Ng *et al*), 810
- granisetron reduces the incidence and severity of nausea and vomiting after laparoscopic cholecystectomy (Fujii *et al*), 396
- prevention of PONV with granisetron, droperidol and metoclopramide in female patients with history of motion sickness (Fujii *et al*), 820

**Granisetron**

- granisetron reduces postoperative nausea and vomiting throughout menstrual cycle (Fujii *et al*), 489
- granisetron reduces the incidence and severity of nausea and vomiting after laparoscopic cholecystectomy (Fujii *et al*), 396
- prevention of PONV with granisetron, droperidol and metoclopramide in female patients with history of motion sickness (Fujii *et al*), 820
- prophylactic antiemetic efficacy of granisetron in patients with and without previous postoperative emesis (Fujii *et al*), 273

**5-HT<sub>3</sub> antagonists**

- intravenous dolasetron mesilate ameliorates postoperative nausea and vomiting (Diemunsch *et al*), 173
- prophylactic oral dolasetron mesylate reduces nausea and vomiting after abdominal hysterectomy (Warriner *et al*), 1167

**Metoclopramide**

- prevention of PONV with granisetron, droperidol and metoclopramide in female patients with history of motion sickness (Fujii *et al*), 820

**Ondansetron**

- comparison of recovery following prophylactic ondansetron, dimenhydrinate and placebo in outpatient laparoscopy: abstract (Moote *et al*), A73-A
- vomiting after strabismus surgery in children: ondansetron *vs* propofol (Splinter *et al*), 825

- *see also VOMITING*

**ANTIGENS**

- enhanced spontaneous antibody response after coronary artery bypass surgery (Salo *et al*), 617

**APROTININ, *see under PHARMACOLOGY*****ARRHYTHMIA, *see under HEART*****ARTERIES****Cerebral**

- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426
- nitric oxide and related vasodilators: refresher course outline (Young), R23; R29

**ARTERIES (continued)****Pulmonary**

- isoflurane inhibits endothelium-mediated nitric oxide relaxing pathways in the isolated perfused rabbit lung: laboratory investigation (Oshima *et al*), 1108

**Rat**

- halothane inhibition of acetylcholine-induced relaxation in rat mesenteric artery and aorta: laboratory report (Iranami *et al*), 1196

**Takayasu's arteritis**

- extreme arterial blood pressure differentials in a patient with Takayasu's arteritis: clinical report (Meikle and Milne), 868

**ASPIRATION, see under COMPLICATIONS****ASTHMA, see under COMPLICATIONS****ATRACURIUM, see under NEUROMUSCULAR RELAXANTS****ATROPINE, see under PARASYMPATHETIC NERVOUS SYSTEM, PHARMACOLOGY****AUDITS, see under ANAESTHESIOLOGY****AWARENESS, see under ANAESTHESIA; COMPLICATIONS****BIOASSAY**

- do enflurane and isoflurane interfere with the release, action, or stability of endothelium-derived relaxing factors?: laboratory investigation (Blaise *et al*), 550

**BIOTRANSFORMATION (DRUG)**

- neostigmine requirements for reversal of neuromuscular blockade following an infusion of mivacurium (Lessard *et al*), 836

**BLOOD****Autologous/Autotransfusion**

- assessment of a new ultrafiltration blood processing system: equipment review (Duffy *et al*), 1204
- hematologic effects of an ultra filtration autotransfusion device: abstract (Robblee *et al*), A50-A
- preoperative autologous donation of 6 units of blood during rh-EPO treatment: brief report (Milbrink *et al*), 1315

**Circulation**

- arterial oxygenation during one lung ventilation: a comparison between isoflurane and sevoflurane (Shimizu *et al*), 1162

**Coagulation**

- additional dose of aprotinin may improve hemodynamics during postreperfusion period in patients undergoing orthotopic liver transplantation (OLT): abstract (Dobkowski *et al*), A31-B
- aprotinin may affect extubation time after orthotopic liver transplantation: abstract (Dobkowski *et al*), A34-A

- heparin/protamine dosing guided by *in vitro* testing does not reduce blood loss and transfusion in cardiac surgery: abstract (Côté), A9-B

- perioperative thromboelastography and sonoclot analysis in morbidly obese patients (Pivalizza *et al*), 942

- protamine-induced hypotension and bradycardia in a cardiac transplant patient: clinical report (Backman *et al*), 520

- tranexamic acid reduces blood loss and transfusion in reoperative cardiac surgery (Dryden *et al*), 934

**Fibrinolysis**

- tranexamic acid reduces blood loss and transfusion in reoperative cardiac surgery (Dryden *et al*), 934

**Filters**

- depletion of activated neutrophils by a filter during cardiac valve surgery (Hurst *et al*), 131

**Loss**

- a cost assessment of intraoperative blood salvage for primary total hip arthroplasty using the COBE BRAT 10 system: abstract (Smith and Crosby), A10-B

- heparin/protamine dosing guided by *in vitro* testing does not reduce blood loss and transfusion in cardiac surgery: abstract (Côté), A9-B

- reduction of intraoperative blood loss by a single dose tranexamic acid: abstract (van der Starre and van Rooyen-Butijn), A6-A

- tranexamic acid reduces blood loss and transfusion in reoperative cardiac surgery (Dryden *et al*), 934

**Platelets**

- the importance of sampling site in the measurement of whole blood platelet flow cytometry: abstract (Robblee *et al*), A62-A

- platelet aggregation is impaired during anaesthesia with sevoflurane but not with isoflurane (Hirakata *et al*), 1157

**Protamine**

- protamine-induced hypotension and bradycardia in a cardiac transplant patient: clinical report (Backman *et al*), 520

**Transfusion**

- association of mortality with age of blood transfused in septic ICU patients (Purdy *et al*), 1256

- prospective randomized study showed a decrease in red blood cell and fresh frozen plasma transfusion when conjugated estrogen (Premarin) administration is compared to placebo during orthotopic liver transplantation: abstract (Frenette *et al*), A31-A

- tranexamic acid reduces blood loss and transfusion in reoperative cardiac surgery (Dryden *et al*), 934

- *see also* BRAIN, Blood flow, Blood volume

**BLOOD PRESSURE**

- haemodynamic comparison of sevoflurane and isoflurane anaesthesia in surgical patients (Inada *et al*), 140
- haemodynamic effects of hypotension induced by KRN2391 and nicardipine in isoflurane anaesthetized dogs: laboratory investigation (Takeda *et al*), 1002
- propofol inhibits medullary pressor mechanisms in cats: laboratory investigation (Yang *et al*), 775

**BRADYCARDIA, *see under* COMPLICATIONS;****HEART, Transplantation****BRAIN****Blood flow**

- anaesthesia for carotid artery surgery: refresher course outline (Mutch), R90; R96
- cerebrovascular  $\text{CO}_2$  reactivity in elderly and younger adult patients during sevoflurane anaesthesia (Nishiyama *et al*), 160
- the effect of spinal anaesthesia on cerebral blood flow in parturients undergoing caesarean section: abstract (Grange *et al*), A15-B
- inhibition of cerebral metabolic and circulatory responses to nitrous oxide by 6-hydroxydopamine in dogs: laboratory investigation (Nakanishi *et al*), 1008
- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426

**Blood volume**

- the effect of hypoxia on cerebral blood volume during isoflurane anaesthesia in rabbits with brain tumours: abstract (Craen *et al*), A36-B

**Carbon dioxide tension**

- cerebral oxygen extraction during intracranial aneurysm surgery: the influence of  $\text{PaCO}_2$ : abstract (Orlay and Wong), A59-A
- cerebrovascular  $\text{CO}_2$  reactivity in elderly and younger adult patients during sevoflurane anaesthesia (Nishiyama *et al*), 160
- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426

**Cerebellum**

- suppression of cyclic guanosine monophosphate formation in rat cerebellar slices by propofol, ketamine and midazolam: laboratory investigation (Miyawaki *et al*), 1301

**Cerebrospinal fluid**

- a comparison of simple tests to distinguish cerebrospinal fluid from saline (Walker and Brock-Utne), 494
- opioid sedation does not alter intracranial pressure in head injured patients (Lauer *et al*), 929

**Emboli**

- aortic cannulation is associated with the greatest embolic load in cardiac surgery: abstract (St-Amand *et al*), A63-A

**Evoked potentials**

- effect of  $\text{N}_2\text{O}$  on cerebellar evoked potentials: abstract (Cowan *et al*), A61-B
- median nerve somatosensory evoked potentials during isoflurane anaesthesia (Porkkala *et al*), 963

**Head injury**

- opioid sedation does not alter intracranial pressure in head injured patients (Lauer *et al*), 929

**Hippocampus**

- enhancement of CNS activity by thiopentone: comparison of nociceptive reflex thresholds with hippocampal electroencephalography: abstract (Archer and Roth), A35-A
- pretreatment of hippocampal slices with a novel diphenyl hydantoin (dilantin) derivative protects synaptic transmission after brief anoxic insults: abstract (El-Beheiry *et al*), A61-A

**Hypoxia (*see* HYPOXIA)****Infarction**

- cytokines in human traumatic brain injury: abstract (Reinders *et al*), A37-A

**Medulla**

- propofol inhibits medullary pressor mechanisms in cats: laboratory investigation (Yang *et al*), 775

**Metabolism**

- inhibition of cerebral metabolic and circulatory responses to nitrous oxide by 6-hydroxydopamine in dogs: laboratory investigation (Nakanishi *et al*), 1008

**Oxygenation**

- cerebral oxygen extraction during intracranial aneurysm surgery: the influence of  $\text{PaCO}_2$ : abstract (Orlay and Wong), A59-A

**Perfusion, retrograde**

- cerebral protection using retrograde cerebral perfusion during hypothermic circulatory arrest: preliminary report (Shenkman *et al*), 1096

**Protection**

- cerebral protection using retrograde cerebral perfusion during hypothermic circulatory arrest: preliminary report (Shenkman *et al*), 1096
- pretreatment of hippocampal slices with a novel diphenyl hydantoin (dilantin) derivative protects synaptic transmission after brief anoxic insults: abstract (El-Beheiry *et al*), A61-A

**Thalamus**

- lidocaine alters the membrane properties of neurons in the thalamus - the gateway to sensorium: abstract (Schwarz and Puil), A37-B

**BRONCHOSCOPY, see under MEASUREMENT TECHNIQUES**  
**BRONCHOSPASMS, see under COMPLICATIONS**  
**BUPIVACAINE, see under ANAESTHETICS, LOCAL**

**CARBON DIOXIDE**

- cerebral oxygen extraction during intracranial aneurysm surgery: the influence of  $\text{PaCO}_2$ : abstract (Orlay and Wong), A59-A
- cerebrovascular  $\text{CO}_2$  reactivity in elderly and younger adult patients during sevoflurane anaesthesia (Nishiyama *et al*), 160
- $\text{CO}_2$  absorbents do not share the same physical properties: abstract (Diemunsch and Gervais), A50-B
- the effect of hypocapnia on cerebral blood volume during isoflurane anaesthesia in rabbits with brain tumours: abstract (Craen *et al*), A36-B

**CARDIAC ARREST, see under HEART**

**CARDIAC SURGERY, see under ANAESTHESIA**

**CEREBRAL, see BRAIN**

**CEREBROSPINAL FLUID, see under BRAIN**

**CHLOROPROCAINE, see under ANAESTHETICS, LOCAL**

**CIRCULATION, BLOOD, see under BLOOD**

**CIS-ATRACURIUM, see under NEUROMUSCULAR RELAXANTS**

**CIS-CIS ISOMERS, see under NEUROMUSCULAR RELAXANTS**

**CLONIDINE, see under ANALGESICS; HYPOTHERMIA; PHARMACOLOGY; SYMPATHETIC NERVOUS SYSTEM, PHARMACOLOGY**

**COAGULATION, see under BLOOD**

**COCAINE, see under ANAESTHETICS, LOCAL**

**CODEINE, see under ANALGESICS**

**COMPLICATIONS**

**Abdominal compartment syndrome**

- abdominal compartment syndrome: clinical report (Reeves *et al*), 308

**Airway bleeding**

- negative pressure induced airway and pulmonary injury: clinical report (Bhavani-Shankar *et al*), 78

**Alzheimer's disease**

- tacrine does not alter the potency of succinyl-choline in the rat: laboratory investigation (Ibebungo *et al*), 1021

**Anterior spinal artery syndrome**

- spinal artery syndrome masked by postoperative epidural analgesia: clinical report (Linz *et al*), 1178

**Aspiration**

- airway and respiratory management following non-lethal hanging: continuing medical education (Kaki *et al*), 445

- cricoid pressure: review article (Brimacombe and Berry), 414
- ventilation strategies affect the functional lung injury after aspiration of human breast milk in rabbits: abstract (Swan *et al*), A53-B

**Asthma**

- the patient with reactive airways disease: refresher course outline (Moudgil), R77; R84

**Awareness**

- detecting wakefulness in anaesthetised children (Byers and Muir), 486
- intraoperative awareness in cardiac surgery with early extubation anaesthesia: abstract (Dowd *et al*), A8-A

**Bleeding**

- readmission for bleeding following day care surgery: abstract (Scheepers and Vaghadia), A23-B

**Bradycardia**

- dose-response to anaesthetic induction with sufentanil: haemodynamic and electroencephalographic effects (Sareen *et al*), 19

**Brain-stem anaesthesia**

- brainstem anaesthesia after peribulbar anaesthesia: clinical report (Gomez *et al*), 732
- difficult intubation and brain-stem anaesthesia: clinical report (Ananthanarayan *et al*), 658

**Bronchospasms**

- midazolam reverses histamine-induced bronchoconstriction in dogs: laboratory investigation (Hirota *et al*), 1115

**Cardiovascular responses**

- EMLA® patch for intravenous cannulation in adult surgical outpatients (Vaghadia *et al*), 798

**Cervical myelopathy**

- anterior cervical myelopathy in the early postoperative period: clinical report (Muñoz Corsini *et al*), 872

**Chronic renal failure**

- continuous haemodiafiltration during and after cardiopulmonary bypass in renal failure patients: clinical report (Kubota *et al*), 1182

**Death**

- predictors of hospital mortality in CABG patients undergoing early extubation anaesthesia: abstract (Wong *et al*), A65-B

**Embolism**

- cardiovascular collapse after femoral prosthesis surgery for acute hip fracture: clinical report (Pietak *et al*), 198
- clinical features and echocardiography of embolism during cemented hip arthroplasty (Lafont *et al*), 112

- oxygen venous embolism after the use of hydrogen peroxide during lumbar discectomy: clinical report (Despond and Fiset), 410
- relationship of fat embolism to haemodynamic and echocardiographic changes during cemented arthroplasty: laboratory investigation (Murphy *et al*), 1293
- venous air embolism during orthotopic liver transplantation in a child: clinical report (Souron *et al*), 1187

**Epidural abscess**

- epidural abscess after combined spinal-epidural block: clinical report (Schröter *et al*), 300

**Fasciculations/Myalgia**

- fasciculations, myalgia and biochemical changes following succinylcholine with atracurium and lidocaine pretreatment (Raman and San), 498
- what is the best non-depolarizing relaxant to prevent succinylcholine fasciculations and myalgia?: abstract (Carrier *et al*), A24-A

**Haemoptysis**

- negative pressure induced airway and pulmonary injury: clinical report (Bhavani-Shankar *et al*), 78

**Headache**

- continuous spinal anaesthesia using a standard epidural set for extracorporeal shockwave lithotripsy (Shenkman *et al*), 1042

**Hypertension**

- cardiovascular responses to tracheal extubation or LMA removal in normotensive and hypertensive patients (Fujii *et al*), 1082
- prostaglandin E1, lidocaine, and prostaglandin E1-lidocaine combination for attenuating cardiovascular responses to extubation: brief report (Nishina *et al*), 1211

**Hyperthermia (see HYPERTHERMIA)**

**Hypomagnesaemia**

- magnesium deficiency increases ketamine sensitivity in rats: laboratory investigation (Orser *et al*), 883

**Hypotension**

- dose-response to anaesthetic induction with sufentanil: haemodynamic and electroencephalographic effects (Sareen *et al*), 19

**Intraoperative events**

- intraoperative adverse events during ambulatory surgical procedures: abstract (Chung and Mezei), A70-A
- risk of unanticipated intraoperative events in patients assessed at a preanaesthetic clinic (Lee *et al*), 946

**Myocardial infarction**

- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction? (Chedrawy *et al*), 843

**Nausea and vomiting (see VOMITING)**

**Negative pressure pulmonary oedema**

- negative pressure induced airway and pulmonary injury: clinical report (Bhavani-Shankar *et al*), 78

**Neurological**

- neuropathies masquerading as an epidural complication: clinical report (Kahn), 313

**Obesity**

- perioperative thromboelastography and sonoclot analysis in morbidly obese patients (Pivalizza *et al*), 942

**Oculocardiac reflex**

- low incidence of the oculocardiac reflex and postoperative nausea and vomiting in adults undergoing strabismus surgery (Tramèr *et al*), 830

**Paralysis**

- spinal artery syndrome masked by postoperative epidural analgesia: clinical report (Linz *et al*), 1178

**Phaeochromocytoma**

- anaesthesia for phaeochromocytoma in pregnancy: clinical report (Hamilton *et al*), 654

**Postoperative**

- incidence of immediate postoperative complications in neurosurgical patients: abstract (Boyle *et al*), A36-A

**Protamine shock**

- hyperthermia after cardiac surgery: clinical report (Abe *et al*), 662

**Pruritus**

- effect of treatment of subarachnoid morphine-induced pruritus on postoperative nausea and vomiting: abstract (Alhashemi *et al*), A18-B
- treatment of intrathecal morphine-induced pruritus; diphenhydramine vs nalbuphine: abstract (Alhashemi *et al*), A25-A
- treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine vs diphenhydramine (Alhashemi *et al*), 1060

**Pulmonary oedema**

- airway and respiratory management following non-lethal hanging: continuing medical education (Kaki *et al*), 445

**Regurgitation**

- cricoid pressure: review article (Brimacombe and Berry), 414

**Reparalysis**

- postoperative reparalysis after rocuronium following nebulized epinephrine: clinical report (Arndt *et al*), 321

**Respiratory**

- brainstem anaesthesia after peribulbar anaesthesia: clinical report (Gomez *et al*), 732

**COMPLICATIONS (continued)****Respiratory (continued)**

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118

**Shivering**

- clonidine at induction reduces shivering after general anaesthesia (Buggy *et al*), 263

**Smoking**

- cigarette smoking does not affect thiopentone pharmacodynamic or pharmacokinetic behaviour (Teiriä *et al*), 1269

**Stroke**

- aortic atherosclerotic plaque identified by epiaortic scanning predicts cerebral embolic load in cardiac surgery: abstract (St-Amand *et al*), A7-B
- aortic cannulation is associated with the greatest embolic load in cardiac surgery: abstract (St-Amand *et al*), A63-A

**Tachycardia**

- cardiovascular responses to tracheal extubation or LMA removal in normotensive and hypertensive patients (Fujii *et al*), 1082
- prostaglandin E1, lidocaine, and prostaglandin E1-lidocaine combination for attenuating cardiovascular responses to extubation: brief report (Nishina *et al*), 1211

**Tamponade**

- ventricular perforation associated with central venous introducer-dilator systems: clinical report (Porter *et al*), 317

**Thrombosis**

- recombinant tissue type plasminogen activator treatment of thrombosed mitral valve prosthesis during pregnancy: clinical report (Fleyfel *et al*), 735

**Tracheal stenosis**

- anaesthesia for tracheal resection - report of 17 cases: clinical report (Magnusson *et al*), 1282
- epidural anaesthesia for ureteral reimplantation in an infant with congenital tracheal stenosis: clinical report (Concha *et al*), 666

**Vomiting (see VOMITING)****COMPUTERS**

- testing the raters: inter-rater reliability of standardized anaesthesia simulator performance (Devitt *et al*), 924
- the value of the Internet to anaesthetists: occasional review (Oyston and Ascah), 439

**CONFERENCE REPORTS**

- symposium on ergonomics in drug delivery (Orser *et al*), 782

**COSTS****Anaesthesia**

- influence of anaesthetic decision making on resource use in major joint replacement: abstract (Orkin), A11-A
- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643
- patient attitudes regarding PCA and associated costs (Badner *et al*), 255
- pharmacoeconomics of intravenous regional anaesthesia *vs* general anaesthesia for outpatient hand surgery (Chilvers *et al*), 1152

**Anaesthesiology education**

- the cost for construction and maintenance of a simulation centre: abstract (Kurrek and Devitt), A38-B
- the cost for construction and operation of a simulation centre (Kurrek and Devitt), 1191
- a cost assessment of intraoperative blood salvage for primary total hip arthroplasty using the COBE BRAT 10 system: abstract (Smith and Crosby), A10-B

**Recovery**

- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118
- vomiting after strabismus surgery in children: ondansetron *vs* propofol (Splinter *et al*), 825
- "zero tolerance for overtime" increases surgical per case costs (Tessler *et al*), 1036

**CRITICAL CARE, see INTENSIVE CARE****DANTROLENE, see under PHARMACOLOGY****DESFLURANE, see under ANAESTHETICS,****VOLATILE****DEXTROMEDTOMIDINE, see under ANALGESICS****DIMENHYDRINATE, see under VOMITING****DIPHENHYDRAMINE, see under PHARMACOLOGY****DOLASETRON, see under ANTIEMETICS****DOPPLER ULTRASOUND, see under MEASUREMENT TECHNIQUES; MONITORING****DROPERIDOL, see under ANTIEMETICS****DRUGS, see PHARMACOLOGY****D-TUBOCURARINE, see under NEUROMUSCULAR RELAXANTS****ECHOCARDIOGRAPHY, see under HEART; MONITORING****ECONOMICS, see COSTS****EDROPHONIUM, see under ANTAGONISTS,****Neuromuscular relaxants****EDUCATION**

- cardiac arrest in the OR: how bad are our ACLS skills?: abstract (Kurrek *et al*), A59-B

- the value of the Internet to anaesthetists: occasional review (Oyston and Ascah), 439

#### Continuing education

- airway and respiratory management following non-lethal hanging: continuing medical education (Kaki *et al*), 445
- an analysis of review articles published in four anaesthesia journals: special article (Smith), 405
- low and minimal flow inhalational anaesthesia: continuing medical education (Baxter), 643

#### Resident training

- resident attitudes towards problem based learning seminars in anaesthesia: abstract (Spadafora *et al*), A39-B

#### Simulators

- constructive feedback using simulator vignettes: abstract (Morgan *et al*), A39-A
- the cost for construction and maintenance of a simulation centre: abstract (Kurrek and Devitt), A38-B
- the cost for construction and operation of a simulation centre (Kurrek and Devitt), 1191
- integration of crisis management using simulation-based education into postgraduate training: first year's experience: abstract (Byrick *et al*), A40-B
- stress in Canadian anaesthesia residency training: abstract (Mayson *et al*), A40-A
- videotape feedback in teaching laryngoscopy (Kardash and Tessler), 54

#### Teaching

- characteristics of good anaesthesia teachers (Cleave-Hogg and Benedict), 587
- teaching and learning in the operating room for the anaesthesia resident: importance of student classroom learning principles: abstract (Shysh and Eagle), A41-B
- teaching and learning in the operating room for the anaesthesia resident: important adult learning principles: abstract (Shysh and Eagle), A41-A
- testing the raters: inter-rater reliability of standardized anaesthesia simulator performance (Devitt *et al*), 924

#### EICOSANOIDS

- platelet aggregation is impaired during anaesthesia with sevoflurane but not with isoflurane (Hirakata *et al*), 1157

#### ELECTROENCEPHALOGRAPHY, *see under* MEASUREMENT TECHNIQUES; MONITORING

#### ELECTROLYTES

- sorbitol 2.5%/mannitol 0.54% irrigation solution for hysteroscopic endometrial ablation surgery (Moir *et al*), 473

#### EMBOLISM, *see under* COMPLICATIONS

#### EMERGENCY ROOM

- anaesthesia and analgesia in the emergency department: refresher course outline (Murphy), R52; R60

#### EMLA, *see under* ANAESTHETICS, LOCAL ENDOTHELIUM

- do enflurane and isoflurane interfere with the release, action, or stability of endothelium-derived relaxing factors?: laboratory investigation (Blaise *et al*), 550
- halothane inhibition of acetylcholine-induced relaxation in rat mesenteric artery and aorta: laboratory report (Iraizumi *et al*), 1196

#### ENFLURANE, *see under* ANAESTHETICS, VOLATILE

#### ENZYMES

##### Age factors

- prolonged mivacurium infusion in young and elderly adults (Goudsouzian *et al*), 955

##### Creatinine kinase

- fasciculations, myalgia and biochemical changes following succinylcholine with atracurium and lidocaine pretreatment (Raman and San), 498

##### Nitric oxide synthase, inducible

- ketamine inhibits nitric oxide synthase in lipopolysaccharide-treated rat alveolar macrophages: laboratory investigation (Li *et al*), 989

##### Plasma cholinesterase

- natural inhibitors of cholinesterases: implications for adverse drug reactions: medical intelligence (Krasowski *et al*), 525

##### Tryptase

- histamine release during cardiopulmonary bypass in neonates and infants (Withington and Aranda), 610

#### EPIDURAL ANAESTHESIA, *see under* ANAESTHETIC TECHNIQUES

#### EPINEPHRINE, *see under* SYMPATHETIC NERVOUS SYSTEM, PHARMACOLOGY

#### EQUIPMENT

##### Airway

- la correction du débit en présence d'une fuite entre trachée et sonde endotrachéale: laboratory investigation (Bijaoui *et al*), 216

##### Autotransfusion

- hematologic effects of an ultra filtration autotransfusion device: abstract (Robblee *et al*), A50-A

##### Barbados

- anaesthesia in Barbados: special article (Bhavani-Shankar *et al*), 559

##### Cell saver

- assessment of a new ultrafiltration blood processing system: equipment review (Duffy *et al*), 1204

**EQUIPMENT (continued)****Circuits**

- limitations to vital capacity inhalation induction with Ohmeda circle circuit: abstract (Fisher *et al*), A11-B
- priming circle anaesthetic circuits for rapid inhalation induction of anaesthesia: abstract (Fisher *et al*), A12-A

**Endotracheal tubes**

- la correction du débit en présence d'une fuite entre trachée et sonde endotrachéale: laboratory investigation (Bijaoui *et al*), 216
- taping methods and tape types for securing oral endotracheal tubes: laboratory report (Patel *et al*), 330

**Fibreoptic**

- laryngeal mask airway facilitated fibreoptic bronchoscopy in infants (Bandla *et al*), 1242

**Infusion systems**

- recall after total intravenous anaesthesia due to an equipment misuse: clinical report (Tong and Chung), 73

**Laryngeal mask airway**

- cardiovascular responses to tracheal extubation or LMA removal in normotensive and hypertensive patients (Fujii *et al*), 1082
- cricoid pressure: review article (Brimacombe and Berry), 414
- laryngeal mask airway facilitated fibreoptic bronchoscopy in infants (Bandla *et al*), 1242
- laryngeal mask airway in severe cervical ankylosis: clinical report (Defalque and Hyder), 305
- limits of laryngeal mask airway in patients after cervical or oral radiotherapy (Giraud *et al*), 1237
- negative pressure induced airway and pulmonary injury: clinical report (Bhavani-Shankar *et al*), 78

**Laryngoscopes**

- the adult Bullard laryngoscope in paediatric patients (Shulman *et al*), 969
- the McCoy levering laryngoscope in patients with limited neck extension: equipment report (Uchida *et al*), 674

**Lidocaine tape**

- lidocaine tape relieves pain due to needle insertion during stellate ganglion block (Inada *et al*), 259

**Lightwand/lighted-stylet**

- light-guided retrograde intubation: technical report (Hung and Al-Qatari), 877

**Needles**

- an *in vitro* study of the contamination susceptibility of three needleless and a standard needle injection systems: abstract (Ho *et al*), A48-B

**Pacemakers**

- electrocardiographic "pacemaker pseudo-spikes" and radio frequency interference: technical report (Cleland and Crosby), 751

**Temperature, warming**

- heat conservation *vs* convective warming in adults undergoing elective surgery: brief report (Patel *et al*), 669

**Ultrafiltration**

- assessment of a new ultrafiltration blood processing system: equipment review (Duffy *et al*), 1204

**Ventilators, volume-controlled**

- haemodynamic changes induced by two I:E ratios: a transoesophageal echocardiographic study (Vedrine *et al*), 354

**EVOKED POTENTIALS, *see under* BRAIN MONITORING****EXTUBATION, *see under* INTUBATION, TRACHEAL****FASCICULATIONS, *see under* COMPLICATIONS****FENTANYL, *see under* ANAESTHETICS, INTRAVENOUS; ANALGESICS****5-HT<sub>3</sub> ANTAGONISTS, *see under* ANTIEMETICS, FLUID BALANCE**

- sorbitol 2.5%/mannitol 0.54% irrigation solution for hysteroscopic endometrial ablation surgery (Moir *et al*), 473

**FLUMAZENIL, *see under* ANTAGONISTS****GASES, NON-ANAESTHETIC****Nitric oxide**

- do we have to treat Acute Respiratory Distress Syndrome (ARDS) with inhaled nitric oxide?: abstract (Troncy *et al*), A33-A
- halothane does not attenuate the vasorelaxation induced by a nitric oxide solution: abstract (Blaise *et al*), A45-B
- inhaled nitric oxide: clinical applications, indications, and toxicology: review article (Troncy *et al*), 973
- ketamine inhibits nitric oxide synthase in lipopolysaccharide-treated rat alveolar macrophages: laboratory investigation (Li *et al*), 989
- nitric oxide and related vasodilators: refresher course outline (Young), R23; R29
- volatile anaesthetics attenuate hypoxia-induced constriction in isolated dog cerebral arteries: laboratory report (Ogawa *et al*), 426

**Nitrogen dioxide**

- inhaled nitric oxide: clinical applications, indications, and toxicology: review article (Troncy *et al*), 973

**GASTROINTESTINAL TRACT**

- gastric fluid measurement by blind aspiration in paediatric patients: a gastroscopic evaluation (Cook-Sather *et al*), 168
- gastric fluid volume in infants for pyloromyotomy (Cook-Sather *et al*), 278

**GENERAL ANAESTHESIA, *see under* ANAESTHETIC TECHNIQUES****GLYCOPYRROLATE, *see under* PARASYMPATHETIC NERVOUS SYSTEM, PHARMACOLOGY****GRANISETRON, *see under* ANTIEMETICS****GUANOSINE 3':5'-CYCLIC MONOPHOSPHATE, *see under* PHARMACOLOGY****GYNAECOLOGICAL SURGERY, *see under* ANAESTHESIA****HAEMOPTYSIS, *see under* COMPLICATIONS****HAEMORRHAGE**

- readmission for bleeding following day care surgery: abstract (Scheepers and Vaghadia), A23-B

**HALOTHANE, *see under* ANAESTHETICS, VOLATILE****HEART****Aortic valve**

- patients with aortic stenosis: cardiac complications in non-cardiac surgery: abstract (Raymer and Yang), A3-B

**Arrhythmia**

- bradycardia produced by pyridostigmine and physostigmine: laboratory investigation (Stein *et al*), 1286
- sevoflurane does not appear to have any effect on SA node function and intraatrial conduction in Wolff-Parkinson-White Syndrome (WPW): abstract (Cuillerier *et al*), A22-B
- sevoflurane does not appear to have electrophysiological effects upon the accessory pathway in Wolff-Parkinson-White (WPW) patients: abstract (Sharpe *et al*), A46-B

**Cardiac arrest**

- cardiac arrest in the OR: how bad are our ACLS skills?: abstract (Kurrek *et al*), A59-B

**Cardiac output**

- chronic cocaine administration does not modify haemodynamic responses to isoflurane anaesthesia in sheep: laboratory investigation (Bernards *et al*), 202
- haemodynamic comparison of sevoflurane and isoflurane anaesthesia in surgical patients (Inada *et al*), 140
- heart rate and cardiac output after atropine in anaesthetised infants and children (McAuliffe *et al*), 154

- the role of the vasculature in regulating venous return and cardiac output: historical and graphical approach: review article (Jacobsohn *et al*), 849

**Circulatory arrest**

- cerebral protection using retrograde cerebral perfusion during hypothermic circulatory arrest: preliminary report (Shenkman *et al*), 1096

**Congenital defects**

- histamine release during cardiopulmonary bypass in neonates and infants (Withington and Aranda), 610

**Coronary artery disease**

- comparison of lorazepam alone vs lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146

**Diagnosis**

- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction? (Chedrawy *et al*), 843

**Echocardiography/Electrocardiography**

- concurrent subarachnoid haemorrhage and myocardial injury: clinical report (Raymer and Choi), 515

**Haemodynamics**

- comparison of lorazepam alone vs lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146

**Heart rate**

- chronic cocaine administration does not modify haemodynamic responses to isoflurane anaesthesia in sheep: laboratory investigation (Bernards *et al*), 202
- haemodynamic comparison of sevoflurane and isoflurane anaesthesia in surgical patients (Inada *et al*), 140

**Mitral valve**

- recombinant tissue type plasminogen activator treatment of thrombosed mitral valve prosthesis during pregnancy: clinical report (Fleyfel *et al*), 735

**Myocardial dysfunction**

- concurrent subarachnoid haemorrhage and myocardial injury: clinical report (Raymer and Choi), 515

**Myocardial enzyme**

- impaired antioxidant defence in guinea pig heart tissues treated with halothane: laboratory investigation (Durak *et al*), 1014

**Myocardial infarction**

- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction?: abstract (Chedrawy *et al*), A32-A
- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction? (Chedrawy *et al*), 843

**HEART (continued)****Myocardial ischaemia**

- comparison of lorazepam alone *vs* lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146
- myocardial ischaemia in first day surgery patients undergoing coronary artery bypass graft surgery: abstract (Lye *et al*), A65-A
- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction? (Chedrawy *et al*), 843
- the myocardium: refresher course outline (Foëx), R67; R73

**Pulmonary hypertension**

- relationship of fat embolism to haemodynamic and echocardiographic changes during cemented arthroplasty: laboratory investigation (Murphy *et al*), 1293

**Right ventricular failure**

- relationship of fat embolism to haemodynamic and echocardiographic changes during cemented arthroplasty: laboratory investigation (Murphy *et al*), 1293

**Shock**

- the role of the vasculature in regulating venous return and cardiac output: historical and graphical approach: review article (Jacobsohn *et al*), 849

**Transplantation**

- heart rate changes in cardiac transplant patients and in the denervated cat heart after edrophonium (Backman *et al*), 247
- protamine-induced hypotension and bradycardia in a cardiac transplant patient: clinical report (Backman *et al*), 520

**Venous return**

- the role of the vasculature in regulating venous return and cardiac output: historical and graphical approach: review article (Jacobsohn *et al*), 849

**HEROIN, *see under ANALGESICS*****HIPPOCAMPUS, *see under BRAIN*****HISTAMINE**

- histamine release during cardiopulmonary bypass in neonates and infants (Withington and Aranda), 610

**HISTORY OF ANAESTHESIA**

- an emergency pocket drug case of the 1940s (Rao and Welsh), 896
- anaesthesia in Barbados: special article (Bhavani-Shankar *et al*), 559
- stethoscopy during anaesthesia: review article (McIntyre), 535

**HYOSCINE, *see under PARASYMPATHETIC NERVOUS SYSTEM, PHARMACOLOGY*****HYPEROXIA, *see under OXYGEN*****HYPERTENSION, *see under COMPLICATIONS*****HYPERTHERMIA**

- clonidine decreases vasoconstriction and shivering thresholds, without affecting the sweating threshold (Nicolaou *et al*), 636
- comparison of distal oesophageal temperature with "deep" and tracheal temperatures: clinical measurement (Matsukawa *et al*), 433
- hyperthermia after cardiac surgery: clinical report (Abe *et al*), 662

**Malignant**

- clinical reassessment of malignant hyperthermia in Abitibi-Témiscamingue (Bachand *et al*), 696
- metabolic events with spontaneous malignant hyperthermia crisis in an anaesthetized pig: laboratory investigation (Kozak-Ribbens *et al*), 757

**HYPNOTICS****Benzodiazepines**

- premedication with midazolam is more effective by the sublingual than oral route (Lim *et al*), 723

**Midazolam**

- midazolam reverses histamine-induced bronchoconstriction in dogs: laboratory investigation (Hirota *et al*), 1115
- premedication with midazolam is more effective by the sublingual than oral route (Lim *et al*), 723
- spinal anaesthesia with midazolam in the rat: laboratory investigation (Bahar *et al*), 208

**HYPOCAPNIA, *see under CARBON DIOXIDE*****HYPOMAGNEAEMIA, *see under COMPLICATIONS*****HYPOTENSION, *see under ANAESTHETIC TECHNIQUES; BLOOD PRESSURE; COMPLICATIONS; PROTAMINE*****HYPOTHERMIA**

- cerebral protection using retrograde cerebral perfusion during hypothermic circulatory arrest: preliminary report (Shenkman *et al*), 1096
- clonidine decreases vasoconstriction and shivering thresholds, without affecting the sweating threshold (Nicolaou *et al*), 636
- heat conservation *vs* convective warming in adults undergoing elective surgery: brief report (Patel *et al*), 669

**HYPOXIA**

- cerebral hypoxia during cardiopulmonary bypass: a magnetic resonance imaging study: abstract (Wong *et al*), A24-B
- loss of consciousness and hypoxemia in patients during sedation for digestive endoscopy: abstract (DeLima *et al*), A71-B
- pretreatment of hippocampal slices with a novel diphenyl hydantoin (dilantin) derivative protects synaptic transmission after brief anoxic insults: abstract (El-Behciry *et al*), A61-A

**IMMUNE RESPONSE**

- cytokines in human traumatic brain injury: abstract (Reinders *et al*), A37-A
- enhanced spontaneous antibody response after coronary artery bypass surgery (Salo *et al*), 617
- plasma levels of endothelin-like immunoreactivity during coronary bypass: abstract (Yang *et al*), A6-B

**INFARCTION, see under BRAIN; HEART; Myocardial infarction**

**INFECTION**

- an *in vitro* study of the contamination susceptibility of three needleless and a standard needle injection systems: abstract (Ho *et al*), A48-B
- septic shock: review article (Baxter), 59

**INFLAMMATION**

- interleukin-10 and interleukin-1 receptor antagonists increase during cardiac surgery (Kawamura *et al*), 38

**INTENSIVE CARE**

- haemodynamic changes induced by two I:E ratios: a transoesophageal echocardiographic study (Vedrinne *et al*), 354
- increased cis-atracurium requirements during prolonged administration to a child: clinical report (Tobias), 82

**Length of stay**

- early extubation does not reduce ICU length of stay in cardiac surgery patients: abstract (Wood and Heyland), A5-A

**Neonatal**

- la correction du débit en présence d'une fuite entre trachée et sonde endotrachéale: laboratory investigation (Bijaoui *et al*), 216

**Obstetric**

- critical care management of the obstetric patient: occasional review (Lapinsky *et al*), 325
- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction? (Chedrawy *et al*), 843

**Sedation**

- sedation, analgesia and muscle relaxation and the critically ill patient: refresher course outline (Park), R40; R46

**Sepsis**

- association of mortality with age of blood transfused in septic ICU patients (Purdy *et al*), 1256
- septic shock: review article (Baxter), 59

**Ventilation**

- attitudes and beliefs regarding  $O_2$  therapy in mechanically ventilated patients in the ICU - a Canada-wide survey: abstract (Kavanagh and Ngo), A3-A

**INTERACTIONS, DRUG, see under PHARMACOLOGY**  
**INTUBATION, TRACHEAL**

**Complications**

- hypertensive response to intubation. Do researchers acknowledge previous work? (Smith and Goodman), 9
- limits of laryngeal mask airway in patients after cervical or oral radiotherapy (Giraud *et al*), 1237
- reduction in post-intubation respiratory resistance by isoflurane and albuterol (Choi *et al*), 717
- cricoid pressure: review article (Brimacombe and Berry), 414

**Difficult**

- difficult intubation and brain-stem anaesthesia: clinical report (Ananthanarayan *et al*), 658
- has the practice of airway management changed?: abstract (Rose and Cohen), A51-B
- laryngeal mask airway in severe cervical ankylosis: clinical report (Defalque and Hyder), 305
- limits of laryngeal mask airway in patients after cervical or oral radiotherapy (Giraud *et al*), 1237
- a multifactorial risk index for predicting difficult tracheal intubations: abstract (Karkouli *et al*), A52-A
- effects of superior laryngeal nerve block on heart rate and blood pressure responses to endotracheal intubation: abstract (Alhashemi *et al*), A4-B

**Extubation**

- cardiovascular responses to tracheal extubation or LMA removal in normotensive and hypertensive patients (Fujii *et al*), 1082
- early extubation does not reduce ICU length of stay in cardiac surgery patients: abstract (Wood and Heyland), A5-A
- predictors of prolonged extubation time (EXT) in CABG patients undergoing early extubation anaesthesia: abstract (Chen *et al*), A9-A
- prostaglandin E1, lidocaine, and prostaglandin E1-lidocaine combination for attenuating cardiovascular responses to extubation: brief report (Nishina *et al*), 1211

**Fibroptic**

- anticholinergics improve fibroptic intubating conditions during general anaesthesia (Brookman *et al*), 165
- intubating conditions and neuromuscular block after divided dose mivacurium or single dose rocuronium (Patel *et al*), 49

**Lightwand/retrograde**

- light-guided retrograde intubation: technical report (Hung and Al-Qatari), 877
- morbidity outcome in patients undergoing cardiac septal myectomy - early extubation anaesthesia (EEA) *vs* high dose narcotic (HDN) anaesthesia: abstract (Cregg *et al*), A8-B

**INTUBATION, TRACHEAL (continued)****Technique**

- the adult Bullard laryngoscope in paediatric patients (Shulman *et al*), 969
- effects of nebulized lidocaine on the hyperdynamic response to tracheal intubation: abstract (Alhashemi *et al*), A4-A
- light-guided retrograde intubation: technical report (Hung and Al-Qatari), 877
- the McCoy levering laryngoscope in patients with limited neck extension: equipment report (Uchida *et al*), 674
- videotape feedback in teaching laryngoscopy (Kardash and Tessler), 54

**- see also EQUIPMENT, Laryngeal mask airway IONS**

- fasciculations, myalgia and biochemical changes following succinylcholine with atracurium and lidocaine pretreatment (Raman and San), 498
- magnesium deficiency increases ketamine sensitivity in rats: laboratory investigation (Orser *et al*), 883

**IPRATROPIUM, see under PARASYMPATHETIC NERVOUS SYSTEM, PHARMACOLOGY****ISAACS' SYNDROME, see under SYNDROMES****ISCHEMIA, see under HEART****ISOFLURANE, see under ANAESTHETICS, VOLATILE****KETAMINE, see under ANAESTHETICS, INTRAVENOUS; ANALGESICS****KETOPROFEN, see under ANALGESICS****KETOROLAC, see under ANALGESICS****KIDNEY**

- hyperoxia alters the urinary organic acid excretion of mice: abstract (Snedden *et al*), A33-B
- onset of vecuronium neuromuscular blockade at the hand with an arterio-venous shunt: brief report (Iwasaki *et al*), 1208

**LARYNGEAL MASK AIRWAY, see under EQUIPMENT****LARYNGOSCOPES, see under EQUIPMENT****LARYNX**

- negative pressure induced airway and pulmonary injury: clinical report (Bhavani-Shankar *et al*), 78

**LEGAL ISSUES, CONSENT**

- epidural analgesia for labour and delivery: informed consent issues (Pattee *et al*), 918

**LEIGH'S SYNDROME, see under SYNDROMES****LEUKOCYTES, see under BLOOD****LIDOCAINE, see under ANAESTHETICS, LOCAL; ANALGESICS; PHARMACOLOGY****LIVER, TRANSPLANTATION**

- additional dose of aprotinin may improve hemodynamics during postreperfusion period in patients

undergoing orthotopic liver transplantation (OLT): abstract (Dobkowski *et al*), A31-B

- aprotinin may affect extubation time after orthotopic liver transplantation: abstract (Dobkowski *et al*), A34-A
- prospective randomized study showed a decrease in red blood cell and fresh frozen plasma transfusion when conjugated estrogen (Premarin) administration is compared to placebo during orthotopic liver transplantation: abstract (Frenette *et al*), A-31A
- venous air embolism during orthotopic liver transplantation in a child: clinical report (Souron *et al*), 1187

**LOCAL ANAESTHESIA, see under ANAESTHETIC TECHNIQUES****LUNG****Acute respiratory distress syndrome**

- do we have to treat Acute Respiratory Distress Syndrome (ARDS) with inhaled nitric oxide?: abstract (Troncy *et al*), A33-A

**Bronchus**

- midazolam reverses histamine-induced bronchoconstriction in dogs: laboratory investigation (Hiroya *et al*), 1115

**Function**

- the effect of antihypertensive agents on oxygenation following cardiac surgery: abstract (Wood), A62-B
- impaired gas exchange is not predicted by haemodynamics in experimental porcine pleural effusion - a pilot study: abstract (Nichida *et al*), A34-B
- respiratory effects of repeated pulmonary administration of liposome-encapsulated fentanyl (LEF) in healthy volunteers: abstract (Hung *et al*), A48-A

**Perfused lung**

- isoflurane inhibits endothelium-mediated nitric oxide relaxing pathways in the isolated perfused rabbit lung: laboratory investigation (Oshima *et al*), 1108

**Reactive airways disease**

- the patient with reactive airways disease: refresher course outline (Moudgil), R77; R84

**Respiratory depression**

- comparison of lorazepam alone vs lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146

**Respiratory failure**

- treatment of acute respiratory failure by prolonged non-invasive ventilation in a child: clinical report (Marino *et al*), 727

**Respiratory resistance**

- reduction in post-intubation respiratory resistance by isoflurane and albuterol (Choi *et al*), 717

**Transplantation**

- anaesthesia for patients after lung transplantation: review article (Haddow), 182
- perioperative anaesthetic considerations for patients undergoing lung transplantation: review article (Singh and Bossard), 284

**MAC (MINIMUM ALVEOLAR CONCENTRATION)**

- intrathecal neurokinin-1 receptor antagonist reduces isoflurane MAC in rats: laboratory investigation (Ishizaki *et al*), 543

**MAGNETIC RESONANCE IMAGING, *see under* MEASUREMENT TECHNIQUES****MANPOWER**

- anaesthesia in Barbados: special article (Bhavani-Shankar *et al*), 559

**MEASUREMENT TECHNIQUES****Blood flow, cerebral**

- cerebrovascular CO<sub>2</sub> reactivity in elderly and younger adult patients during sevoflurane anaesthesia (Nishiyama *et al*), 160
- inhibition of cerebral metabolic and circulatory responses to nitrous oxide by 6-hydroxydopamine in dogs: laboratory investigation (Nakanishi *et al*), 1008

**Blood pressure**

- chronic cocaine administration does not modify haemodynamic responses to isoflurane anaesthesia in sheep: laboratory investigation (Bernards *et al*), 202

**Bronchoscopy**

- midazolam reverses histamine-induced bronchoconstriction in dogs: laboratory investigation (Hirota *et al*), 1115

**Cardiac output**

- cardiac output estimation by visual inspection vs thermodilution during cardiac surgery (Aye *et al*), 126
- cardiac performance during unilateral lumbar spinal block after crystalloid preload (Casati *et al*), 623
- chronic cocaine administration does not modify haemodynamic responses to isoflurane anaesthesia in sheep: laboratory investigation (Bernards *et al*), 202

**Cerebral metabolic rate for oxygen**

- inhibition of cerebral metabolic and circulatory responses to nitrous oxide by 6-hydroxydopamine in dogs: laboratory investigation (Nakanishi *et al*), 1008

**Doppler ultrasound, transcranial**

- cerebrovascular CO<sub>2</sub> reactivity in elderly and younger adult patients during sevoflurane anaesthesia (Nishiyama *et al*), 160

**Echocardiography**

- haemodynamic changes induced by two I:E ratios: a transoesophageal echocardiographic study (Vedrinen *et al*), 354

**Electroencephalography**

- cerebral protection using retrograde cerebral perfusion during hypothermic circulatory arrest: preliminary report (Shenkman *et al*), 1096

**Electromyography**

- intubating conditions and neuromuscular block after divided dose mivacurium or single dose rocuronium (Patel *et al*), 49

**Evoked responses**

- cigarette smoking does not affect thiopentone pharmacodynamic or pharmacokinetic behaviour (Teiriä *et al*), 1269
- spinal somatosensory evoked potentials after epidural isoproterenol in awake sheep: laboratory report (Marcus *et al*), 85

**Magnetic resonance imaging/spectroscopy**

- cerebral hypoxia during cardiopulmonary bypass: a magnetic resonance imaging study: abstract (Wong *et al*), A24-B
- metabolic events with spontaneous malignant hyperthermia crisis in an anaesthetized pig: laboratory investigation (Kozak-Ribbens *et al*), 757

**Neuromuscular blockade**

- comparison of neuromuscular blockade on the thumb and on the big toe after administration of rocuronium: abstract (Deladrière *et al*), A47-A

**Ultrasound M-mode, spirometry**

- non-invasive quantification of diaphragm kinetics using m-mode sonography: measurement technique (Ayoub *et al*), 739

**MEPERIDINE, *see under* ANALGESICS****METABOLISM**

- anaesthetic management of a patient with Leigh's syndrome: clinical report (Shenkman *et al*), 1091
- impaired antioxidant defence in guinea pig heart tissues treated with halothane: laboratory investigation (Durak *et al*), 1014
- oral clonidine premedication decreases energy expenditure in human volunteers (Takahashi *et al*), 268

**METOCLOPRAMIDE, *see under* ANTIEMETICS****MIDAZOLAM, *see under* ANAESTHETICS,****INTRAVENOUS; ANAESTHETICS, LOCAL; HYPNOTICS****MIVACURIUM, *see under* NEUROMUSCULAR RELAXANTS****MONITORING****Aortic blood flow**

- continuous oesophageal aortic blood flow echo-Doppler measurement during general anaesthesia

**MONITORING (continued)****Aortic blood flow (continued)**

- in infants: measurement technique (Gueugniaud *et al*), 745

**Blood pressure**

- extreme arterial blood pressure differentials in a patient with Takayasu's arteritis: clinical report (Meikle and Milne), 868

**Central venous pressure**

- ventricular perforation associated with central venous introducer-dilator systems: clinical report (Porter *et al*), 317

**Echocardiography, transoesophageal**

- clinical features and echocardiography of embolism during cemented hip arthroplasty (Lafont *et al*), 112
- haemodynamic effects of mechanical peritoneal retraction during laparoscopic cholecystectomy (Couture *et al*), 467
- relationship of fat embolism to haemodynamic and echocardiographic changes during cemented arthroplasty: laboratory investigation (Murphy *et al*), 1293

**Echo-Doppler**

- continuous oesophageal aortic blood flow echo-Doppler measurement during general anaesthesia in infants: measurement technique (Gueugniaud *et al*), 745

**Electrocardiography**

- postoperative elevation of creatine kinase (CK-MB): does it contribute to diagnosis of myocardial infarction? (Chedrawy *et al*), 843

**Electroencephalography, burst-suppression**

- median nerve somatosensory evoked potentials during isoflurane anaesthesia (Porkkala *et al*), 963

**Evoked potentials**

- comparison of cerebral oximeter and evoked potential monitoring in carotid endarterectomy (Duffy *et al*), 1077

**Neuromuscular blockade**

- monitoring orbicularis oculi predicts good intubating conditions after vecuronium in children (Plaud *et al*), 712

**Oximetry**

- comparison of cerebral oximeter and evoked potential monitoring in carotid endarterectomy (Duffy *et al*), 1077

**Radiofrequency interference**

- electrocardiographic "pacemaker pseudo-spikes" and radio frequency interference: technical report (Cleland and Crosby), 751

**Stethoscope**

- stethoscopy during anaesthesia: review article (McIntyre), 535

**Thromboelastography**

- perioperative thromboelastography and sonoclot analysis in morbidly obese patients (Pivalizza *et al*), 942

**Train-of-four, double burst stimulation**

- train-of-four and double burst stimulation fade at the great toe and thumb (Saitoh *et al*), 390

**MORPHINE, see under ANALGESICS****MUSCLES**

- metabolic events with spontaneous malignant hyperthermia crisis in an anaesthetized pig: laboratory investigation (Kozak-Ribbens *et al*), 757
- monitoring orbicularis oculi predicts good intubating conditions after vecuronium in children (Plaud *et al*), 712
- tacrine does not alter the potency of succinylcholine in the rat: laboratory investigation (Ibebungo *et al*), 1021
- train-of-four and double burst stimulation fade at the great toe and thumb (Saitoh *et al*), 390

**MUSIC**

- music enhances patient controlled sedation for monitored anaesthesia care: abstract (Curran *et al*), A72-B
- music increases satisfaction in elderly outpatients undergoing cataract surgery (Cruise *et al*), 43

**MYALGIA, see under COMPLICATIONS****MYOCARDIAL, see under HEART****MYOCARDIUM**

- the myocardium: refresher course outline (Foëx), R67; R73

**NAFAMOSTAT MESILATE, see under PHARMACOLOGY****NALBUPHINE, see under PHARMACOLOGY****NAUSEA, see VOMITING****NEOSTIGMINE, see under ANTAGONISTS, Neuromuscular relaxants****NERVE BLOCK, see under ANAESTHETIC TECHNIQUES****NEUROMUSCULAR BLOCKADE, see under MEASUREMENT TECHNIQUES; MONITORING****NEUROMUSCULAR RELAXANTS****Atracurium**

- fasciculations, myalgia and biochemical changes following succinylcholine with atracurium and lidocaine pretreatment (Raman and San), 498

**cis-atracurium**

- increased cis-atracurium requirements during prolonged administration to a child: clinical report (Tobias), 82
- a randomized double-blind study evaluating the haemodynamic effects of two doses of cis-atracurium to vecuronium in patients undergoing CABG

- during  $O_2$ /sufentanil/propofol anaesthesia: abstract (Searle *et al*), A64-B
- cis-cis isomers**
  - prolonged mivacurium infusion in young and elderly adults (Goudsouzian *et al*), 955
- d-tubocurarine**
  - comparison of rocuronium and *d*-tubocurarine for prevention of succinylcholine-induced fasciculations and myalgia (Demers-Pelletier *et al*), 1144
- Intensive care unit**
  - sedation, analgesia and muscle relaxation and the critically ill patient: refresher course outline (Park), R40; R46
- Mivacurium**
  - intubating conditions and neuromuscular block after divided dose mivacurium or single dose rocuronium (Patel *et al*), 49
  - natural inhibitors of cholinesterases: implications for adverse drug reactions: medical intelligence (Krasowski *et al*), 525

#### Plasma levels

- prolonged mivacurium infusion in young and elderly adults (Goudsouzian *et al*), 955
- serum concentrations of lignocaine and pain relief after intraperitoneal administration during hysterectomy: abstract (Williamson and Smith), A66-A

### PHARMACOLOGY

#### Acetylcholine

- halothane inhibition of acetylcholine-induced relaxation in rat mesenteric artery and aorta: laboratory report (Iranami *et al*), 1196

#### Anticonvulsants

- pretreatment of hippocampal slices with a novel diphenyl hydantoin (dilantin) derivative protects synaptic transmission after brief anoxic insults: abstract (El-Beheiry *et al*), A61-A

#### Aprotinin

- additional dose of aprotinin may improve hemodynamics during postreperfusion period in patients undergoing orthotopic liver transplantation (OLT): abstract (Dobkowski *et al*), A31-B
- aprotinin may affect extubation time after orthotopic liver transplantation: abstract (Dobkowski *et al*), A34-A

#### Calcium channel blocker, nicardipine

- haemodynamic effects of hypotension induced by KRN2391 and nicardipine in isoflurane anaesthetized dogs: laboratory investigation (Takeda *et al*), 1002

#### Clonidine

- clonidine at induction reduces shivering after general anaesthesia (Buggy *et al*), 263

#### Dantrolene

- hyperthermia after cardiac surgery: clinical report (Abe *et al*), 662

#### Diphenhydramine

- treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine *vs* diphenhydramine (Alhashemi *et al*), 1060
- discontinuing drugs before surgery: refresher course outline (Doak), R112; R118

#### Drug delivery

- comparative topical anaesthesia of EMLA and liposome-encapsulated tetracaine (Hung *et al*), 707

#### Granisetron

- prophylactic antiemetic efficacy of granisetron in patients with and without previous postoperative emesis (Fujii *et al*), 273

#### Guanosine 3':5'-cyclic monophosphate (cGMP)

- halothane inhibition of acetylcholine-induced relaxation in rat mesenteric artery and aorta: laboratory report (Iranami *et al*), 1196
- suppression of cyclic guanosine monophosphate formation in rat cerebellar slices by propofol, ketamine and midazolam: laboratory investigation (Miyawaki *et al*), 1301

#### Immunosuppression

- anaesthesia for patients after lung transplantation: review article (Haddow), 182

#### Interactions, drug

- comparison of rocuronium and *d*-tubocurarine for prevention of succinylcholine-induced fasciculations and myalgia (Demers-Pelletier *et al*), 1144
- comparison of vecuronium with ORG 9487 and their interaction (Schiere *et al*), 1138
- tacrine does not alter the potency of succinylcholine in the rat: laboratory investigation (Ibebungo *et al*), 1021

#### Lidocaine

- prostaglandin E1, lidocaine, and prostaglandin E1-lidocaine combination for attenuating cardiovascular responses to extubation: brief report (Nishina *et al*), 1211

#### Liposome

- comparative topical anaesthesia of EMLA and liposome-encapsulated tetracaine (Hung *et al*), 707

#### Nafamostat mesilate

- continuous haemodiafiltration during and after cardiopulmonary bypass in renal failure patients: clinical report (Kubota *et al*), 1182

#### Nalbuphine

- treatment of intrathecal morphine-induced pruritus following Caesarean section: nalbuphine *vs* diphenhydramine (Alhashemi *et al*), 1060

#### Nicardipine

- interactions between nicardipine and enflurane, isoflurane, and sevoflurane (Nishiyama *et al*), 1071

#### Nitric oxide (see under GASES, NON-ANAESTHETIC)

#### Pharmacodynamics

- comparison of vecuronium with ORG 9487 and their interaction (Schiere *et al*), 1138

#### Phenylloin

- pretreatment of hippocampal slices with a novel diphenyl hydantoin (dilantin) derivative protects synaptic transmission after brief anoxic insults: abstract (El-Beheiry *et al*), A61-A

**PHARMACOLOGY (continued)****Potassium channel inhibitor**

- halothane inhibition of acetylcholine-induced relaxation in rat mesenteric artery and aorta: laboratory report (Iranami *et al*), 1196

**Potassium channel opener, KRN2391**

- haemodynamic effects of hypotension induced by KRN2391 and nicardipine in isoflurane anaesthetized dogs: laboratory investigation (Takeda *et al*), 1002

**Prostaglandin E1**

- prostaglandin E1, lidocaine, and prostaglandin E1-lidocaine combination for attenuating cardiovascular responses to extubation: brief report (Nishina *et al*), 1211

**Protamine**

- hyperthermia after cardiac surgery: clinical report (Abe *et al*), 662

**Succinylcholine**

- tacrine does not alter the potency of succinylcholine in the rat: laboratory investigation (Ibebungo *et al*), 1021

**Tacrine**

- tacrine does not alter the potency of succinylcholine in the rat: laboratory investigation (Ibebungo *et al*), 1021

**Tranexamic acid**

- reduction of intraoperative blood loss by a single dose tranexamic acid: abstract (van der Starre and van Rooyen-Butijn), A6-A
- tranexamic acid reduces blood loss and transfusion in reoperative cardiac surgery (Dryden *et al*), 934
- *see also PARASYMPATHETIC NERVOUS SYSTEM; SYMPATHETIC NERVOUS SYSTEM*

**PHENYLOIN, *see under PHARMACOLOGY*****PHYSOSTIGMINE, *see under ANTAGONISTS, Neuromuscular relaxants*****PLACENTA**

- sufentanil transfer in the human placenta during *in vitro* perfusion: laboratory investigation (Krishna *et al*), 996

**POSITION**

- effect of head-up position on speed of arterial haemoglobin oxygen desaturation at induction of general anaesthesia: abstract (Mashava and Chinyanga), A49-A
- oxygen venous embolism after the use of hydrogen peroxide during lumbar discectomy: clinical report (Despond and Fiset), 410

**POST ANAESTHETIC CARE UNIT (PACU)**

- nursing workload and PACU complications: abstract (Rose *et al*), A51-1

**POTENCY OF ANAESTHETICS, *see under ANAESTHESIA*****PRACTICE MANAGEMENT**

- does the method of payment affect anaesthetic practice? An evaluation of an Alternate Payment Plan: health care research (Duncan and Ballantyne), 503

**PREGNANCY**

- anaesthesia for phaeochromocytoma in pregnancy: clinical report (Hamilton *et al*), 654
- critical care management of the obstetric patient: occasional review (Lapinsky *et al*), 325

**PREMEDICATION**

- comparison of lorazepam alone vs lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146
- oral clonidine premedication decreases energy expenditure in human volunteers (Takahashi *et al*), 268
- premedication with midazolam is more effective by the sublingual than oral route (Lim *et al*), 723

**PREOPERATIVE ASSESSMENTS**

- anesthesia preadmission assessment - a new approach through use of a screening tool: abstract (Badner *et al*), A70-B
- a model of community based, preadmission management for elective surgical patients: brief report (Shearer *et al*), 1311
- risk of unanticipated intraoperative events in patients assessed at a preanaesthetic clinic (Lee *et al*), 946

**PRILOCAINE, *see under ANAESTHETICS, LOCAL*****PROPACETAMOL, *see under ANALGESICS*****PROPOFOL, *see under ANAESTHETICS, INTRAVENOUS; RECOVERY*****PROSTAGLANDIN E1, *see under PHARMACOLOGY*****PROTAMINE**

- protamine-induced hypotension and bradycardia in a cardiac transplant patient: clinical report (Backman *et al*), 520
- *see also under PHARMACOLOGY*

**PRURITUS, *see under COMPLICATIONS*****PUBLICATIONS****Anaesthesia review articles**

- an analysis of review articles published in four anaesthesia journals: special article (Smith), 405
- anaesthesia for patients after lung transplantation: review article (Haddow), 182
- cricoid pressure: review article (Brimacombe and Berry), 414
- perioperative anaesthetic considerations for patients undergoing lung transplantation: review article (Singh and Bossard), 284
- septic shock: review article (Baxter), 59
- stethoscopy during anaesthesia: review article (McIntyre), 535
- hypertensive response to intubation. Do researchers acknowledge previous work? (Smith and Goodman), 9

- quality and retrieval of obstetrical anaesthesia randomized controlled trials (Bender *et al*), 14

**PULMONARY OEDEMA, *see under* COMPLICATIONS**

**PYRIDOSTIGMINE, *see under* ANTAGONISTS, Neuromuscular relaxants**

**RANDOMIZED CONTROLLED TRIALS**

- comparison of lorazepam alone *vs* lorazepam, morphine, and perphenazine for cardiac premedication (Saccomanno *et al*), 146
- double-blind comparison of epidural ropivacaine 0.25% and bupivacaine 0.25%, for the relief of child-birth pain (Muir *et al*), 599
- intravenous dolasetron mesilate ameliorates postoperative nausea and vomiting (Diemunsch *et al*), 173
- lidocaine tape relieves pain due to needle insertion during stellate ganglion block (Inada *et al*), 259
- quality and retrieval of obstetrical anaesthesia randomized controlled trials (Bender *et al*), 14

**RECEPTORS, NMDA**

- magnesium deficiency increases ketamine sensitivity in rats: laboratory investigation (Orser *et al*), 883

**RECORDS, ANAESTHESIA**

- peaks and valleys of anaesthetic charting: abstract (Devitt *et al*), A49-B

**RECOVERY**

- comparison of recovery following prophylactic ondansetron, dimenhydrinate and placebo in outpatient laparoscopy: abstract (Moote *et al*), A73-A
- nursing workload and PACU complications: abstract (Rose *et al*), A51-1
- recovery characteristics of sevoflurane and propofol after ambulatory urological surgery in children: abstract (Guard *et al*), A53-A

**REGIONAL ANAESTHESIA, *see under* ANAESTHETIC TECHNIQUES**

**TRANSPLANTATION, *see under* HEART; LIVER; LUNG**

**TUMOURS, METASTASIS**

- halothane and isoflurane enhance melanoma tumour metastasis in mice: laboratory report (Moudgil and Singal), 90

**UROLOGICAL SURGERY, *see under ANAESTHESIA*****VASCULAR SURGERY, *see under ANAESTHESIA*****VECURONIUM, *see under NEUROMUSCULAR RELAXANTS*****VEINS, CANNULATION**

- comparative topical anaesthesia of EMLA and liposome-encapsulated tetracaine (Hung *et al*), 707
- EMLA® patch for intravenous cannulation in adult surgical outpatients (Vaghadia *et al*), 798

**VENTILATION****Artificial, non-invasive**

- treatment of acute respiratory failure by prolonged non-invasive ventilation in a child: clinical report (Marino *et al*), 727

**Diaphragm**

- non-invasive quantification of diaphragm kinetics using m-mode sonography: measurement technique (Ayoub *et al*), 739

**Haemodynamic consequences**

- haemodynamic changes induced by two I:E ratios: a transoesophageal echocardiographic study (Vedrine *et al*), 354

**High frequency, jet**

- anaesthesia for tracheal resection - report of 17 cases: clinical report (Magnusson *et al*), 1282

**Intensive care unit, oxygen**

- attitudes and beliefs regarding  $O_2$  therapy in mechanically ventilated patients in the ICU - a Canada-wide survey: abstract (Kavanagh and Ngo), A3-A

**Mechanical**

- haemodynamic changes induced by two I:E ratios: a transoesophageal echocardiographic study (Vedrine *et al*), 354
- la correction du débit en présence d'une fuite entre trachée et sonde endotrachéale: laboratory investigation (Bijaoui *et al*), 216

**One lung**

- arterial oxygenation during one lung ventilation: a comparison between isoflurane and sevoflurane (Shimizu *et al*), 1162

**Postoperative**

- characteristics of respiratory muscles activity following anesthesia and surgery: abstract (Jodoin *et al*), A27-A

**VITAMIN E**

- impaired antioxidant defence in guinea pig heart tissues treated with halothane: laboratory investigation (Durak *et al*), 1014

**VOMITING****Dimenhydrinate**

- comparison of recovery following prophylactic ondansetron, dimenhydrinate and placebo in outpatient laparoscopy: abstract (Moote *et al*), A73-A
- gastric fluid volume in infants for pyloromyotomy (Cook-Sather *et al*), 278

**Motion sickness**

- prevention of PONV with granisetron, droperidol and metoclopramide in female patients with history of motion sickness (Fujii *et al*), 820

**Postoperative nausea and vomiting**

- comparison of tramadol and tramadol/droperidol mixture for patient-controlled analgesia (Ng *et al*), 810
- cost-effectiveness of inhalational, balanced and total intravenous anaesthesia for ambulatory knee surgery (Alhashemi *et al*), 118
- dose-response of flurbiprofen on postoperative pain and emesis after paediatric strabismus surgery: brief report (Mikawa *et al*), 95
- effect of treatment of subarachnoid morphine-induced pruritus on postoperative nausea and vomiting: abstract (Alhashemi *et al*), A18-B
- granisetron reduces postoperative nausea and vomiting throughout menstrual cycle (Fujii *et al*), 489
- granisetron reduces the incidence and severity of nausea and vomiting after laparoscopic cholecystectomy (Fujii *et al*), 396
- intravenous dolasetron mesilate ameliorates postoperative nausea and vomiting (Diemunsch *et al*), 173
- low incidence of the oculocardiac reflex and postoperative nausea and vomiting in adults undergoing strabismus surgery (Tramèr *et al*), 830
- perphenazine decreases vomiting by children after tonsillectomy: brief report (Splinter and Roberts), 1308
- postoperative nausea and vomiting (PONV); comparison of intraoperative use of alfentanil, fentanyl and sufentanil: abstract (Langevin *et al*), A25-B
- prevention of PONV with granisetron, droperidol and metoclopramide in female patients with history of motion sickness (Fujii *et al*), 820
- prophylactic antiemetic efficacy of granisetron in patients with and without previous postoperative emesis (Fujii *et al*), 273

**VOMITING (continued)****Postoperative nausea and vomiting (continued)**

- prophylactic oral dolasetron mesylate reduces nausea and vomiting after abdominal hysterectomy (Warriner *et al*), 1167
- subhypnotic propofol does not treat postoperative vomiting in children after adenotonsillectomy (Zestos *et al*), 401
- vomiting after strabismus surgery in children: ondansetron *vs* propofol (Splinter *et al*), 825

**Pre-operative prophylaxis**

- prophylactic oral dolasetron mesylate reduces nausea and vomiting after abdominal hysterectomy (Warriner *et al*), 1167
- *see also ANTIEMETICS*

**WARMING, *see* TEMPERATURE OF THE BODY**

**WOLFF-PARKINSON-WHITE SYNDROME (WPW),**

*see under SYNDROMES*
